Report Logic

A user cannot submit what is deemed to be duplicate Student Batch Files. This is determined by:

- A previously submitted file for the same school district in existence.

- A file has the same filename, including extension, as a previously submitted file.
- A file has the same extract date as defined in the Header record as a previously submitted file.
- A file has the same extract time as defined in the Header record as a previously submitted file.

The Student's Social Security number or Student Number is used to match on the Local Student ID number.

Report Editor

Field	Description
Effective Date	Indicates the date used to return students active in the selected calendar. This date displays the current date automatically, but can be changed by typing in a new date in mmddyy format or use the calendar icon to select a date.
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields. This field is automatically selected.
Students without State IDs	When marked, only students who do not currently have a state ID are returned on the extract. This field is automatically selected.
Format	Selection determines how the results are returned - tab delimited, CSV, HTML or XML. Use the Tab Delimited option when submitting data to the state.
Calendar	At least one calendar needs to be selected in order to generate the report.

Generate the UniqueID Extract

1. Enter the desired **Effective Date**.
2. Determine whether to include a student's protected identities. If no, remove the selection of the **Report Protected Identities** checkbox.
3. Determine whether to include students who do not have state IDs. If no, remove the selection of the **Students w/o stateIDs** checkbox.
4. Select the desired **Format**.
5. Choose at least one **Calendar** from which to report student data.
6. Click the **Generate Extract** button. The extract displays in the selected format.
