

# Data Health Check Report

Last Modified on 10/21/2024 8:22 am CDT

[Audit Report Summary Section](#) | [Audit Report Detail Section](#)

**This tool has been retired as of Campus.2339**

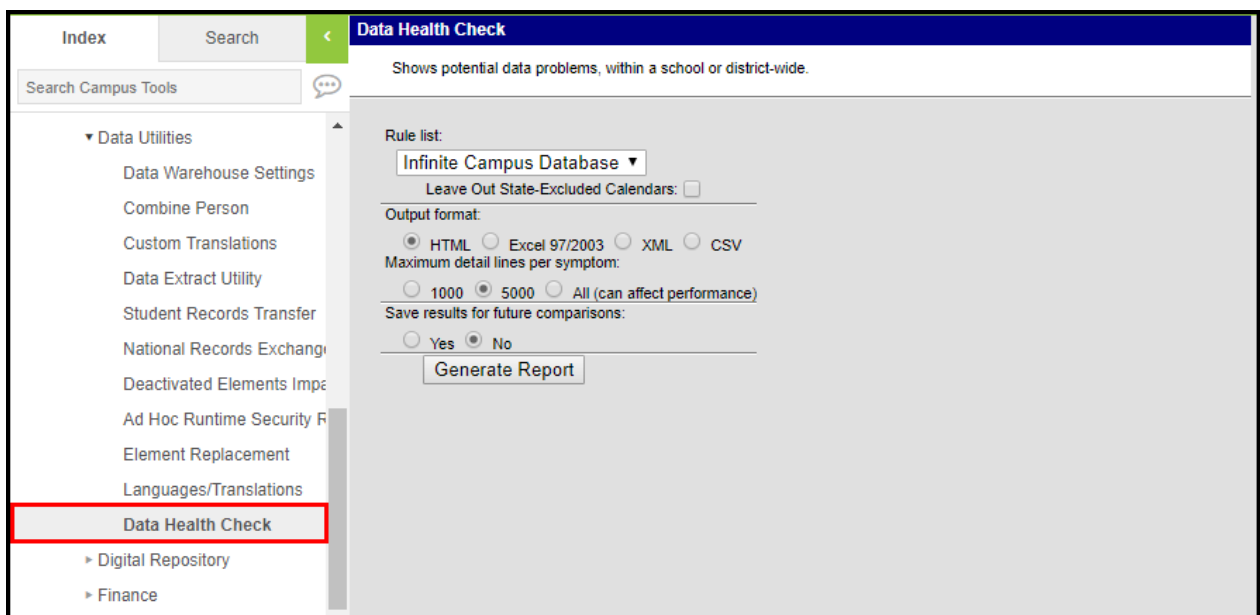

**Existing Data Health Check rule lists have been converted. Validation Groups will need to be added manually to the Data Validation Tool. Use the [Data Health Check to Data Validations Checklist](#) to transition to the Data Validations Report.**

Tool Search: Data Health Check Report

This document provides information on the Data Health Check Report to be used on live districts already using Campus as well as during the implementation process of a new district.

For districts already using Campus, this report shows areas where data can be cleaned to ensure accuracy and increase overall data quality. For districts implementing Campus, this report is generated after every conversion to identify area of source system data cleanup as well as potential mapping rule changes needed by the conversion analyst for a successful implementation.

**This tool is add-on functionality that is not enabled by default within Campus. Please contact Campus Support for more information on accessing and using this tool.**

In this report, the following definitions are used:

- **Student** is defined as anyone who has an enrollment and/or a student number.
- **Current year student** is defined as anyone who has an enrollment record in a current or future year.
- **Prior year student** is defined as anyone who has an enrollment record before the current year.
- **Scheduling** rules look at information in the current year or the next year, not at past years.

The following tables define each summarized item:

## Students

Item	Definition
Students who have no Student Number	The student number field is null/blank when the person has an enrollment record.
Student who have the Same Student Number	Multiple persons who have the same student number.
Current year students who have no State ID	Persons who have enrollment records in the current or future school year but have no state ID number assigned (state ID field is null or blank).
Students who have the same State ID	Multiple person who have the same state ID number.
Students who have the exact same name and birth date	Identifies people with the exact same first and last name and birth date.
Students who have similar names	Identifies people with similar names (e.g., same first name and last name).
Students who have no Birth Date	Persons who have no birth date assigned (field is null/blank).
Students who do not have M or F in the gender field	Person who have invalid or no gender assigned. Invalid is any value other than M(ale) or F(emale).
Prior year Students who have no State ID	Persons who have inactive enrollment records from past school years and the state ID field is blank.
Students who have no Enrollments	Persons who have a student number but do not have any enrollments.

## Census

Item	Definition
People who have the same Social Security Number	People who have identical Social Security numbers.

Item	Definition
Active Students who have no Guardian	Persons who have enrollment records in the current year or future year and there is no current relationship to another person marked as guardian.
Active Students Not in a Household	Persons who do not have a current membership in a household.
Active Students in Households by Themselves	Person who has an enrollment record and a student number in his/her own household.
Active Students who do not have a Mailing Address	Persons who have enrollment records or a student number and do not have an address where mail can be sent.
People who have unusual characters in their names	Persons who have characters other than letters, spaces, dash (-), period (.), or apostrophe (') in their first, middle or last name.
Contacts who have the Same Name	People who do not have student numbers or enrollment records and have the same matching names as described above.
Households with More than Eight Members	A family has more than 8 members assigned. This occurrence is often a result of a conversion error.
Households with More than One Primary Mailing Address	A family has more than one mailing address assigned. This is often a result of a conversion error. There should only be one primary address per household.
Households with More than Two Addresses	A family has more than one address to account for movement between two homes or for families with a mailing address and a different physical address.
Households with More than Two Guardians	A household where more than two people are assigned as guardians of students in the household.
People in more than One Household	People who have active memberships in two or more households.
Contacts who have accessed the parent portal	Indicates all student contacts who have accessed their Campus Portal account.

## Scheduling

Item	Definition
Student's Grade Level not Found in Calendar	Enrolled student's grade level is not listed in the enrolled calendar. This happens when a user deletes a grade level in the Calendar.
Sections with No Schedule	Section placements are not marked on the section tab of a course.

Item	Definition
Students Enrolled with no Schedule	A student is enrolled in a calendar but is not enrolled in any course sections.
Roster Record not in the Same Calendar as Student's Enrollment	Student is enrolled in a calendar with sections assigned and is moved to another calendar, causing orphaned section assignments.
Discrepancy Between Age and Grade Level	Student's age does not appear to match the student's grade level. This could indicate a mis-entered birth date. Listed age is based on the age of the student during the enrollment.
Section with no Teachers	An active course section does not have a primary teacher assigned.
Sections with no Students	An active course section does not have any actively enrolled students.

## Transcripts

Item	Definition
Transcripts without Credits	A student has a transcript record but does not have any earned or attempted credits listed.
Transcript without GPA Values	A student's transcript record does not have a GPA
Unweighted GPA Value Higher than Weighted	A student's GPA has an unweighted GPA value higher than the weighted GPA value.
Weighted GPA Value Higher than Max	A student's weighted GPA value is higher than the maximum GPA value.

## Behavior

Item	Definition
Current year events without resolutions	Identifies current year behavior events with no behavior resolutions assigned.
Prior year events without resolutions	Identifies prior year behavior events with no behavior resolutions assigned.

## Special Education (Sped)

Item	Definition
Current year enrollments that have unlocked IEPs	Indicates current year students who have unlocked IEPs.
Prior year enrollments that have unlocked IEPs	Indicates prior year enrollment records tied to unlocked IEPs.

# Audit Report Summary Section

The summary information lists high-level areas of concern where data may be incorrect. For historical purposes, results of past reports are also available if they exist.

Summary				
Symptom	Priority	Occurrences	Total	Rate
<b>Students</b>				
Students who have no student number	High	107	45166	0.23%
Students who have the same student number	High	10	45166	0.02%
Current year students who have no state ID	High	13	21	61.90%
Students who have the same state ID	High	28	45166	0.06%
Students who have the exact same name and birth date	High	426	45166	0.94%
Students who have similar names	Medium	3491	45166	7.72%
Students who have no birth date	Medium	444	45166	0.98%
Students who do not have M or F in the gender field	Medium	1	45166	0.00%
Prior year students who have no state ID	Low	4464	35074	12.72%
Students who have no enrollments	Low	10071	45166	22.29%
<b>Census</b>				
People who have the same SSN	High	1692	131907	1.28%
Active students who have no guardian	High	6	18	33.33%

## Symptom Column

The Symptom column will display definitions when hovering over the name of the symptom. At the bottom of the Summary information, total percentages and assessment of the data will be viewable for each time the report was generated.

## Priority Column

The Priority column is the level of attention a district should have based on the item to which it refers. The areas with a high priority should be reviewed first, followed by medium and low. To aid in this review, items are sorted by High, Medium and Low priority.

For example, a student with no student number is considered a severity level of *high* because this number is often used in state reporting extracts. A household with more than two addresses is considered a severity of *low* because a household may have a P.O. box and a street address.

All data in error should be reviewed for accuracy, regardless of the severity level.

## Occurrences Column

The Occurrences column provides a total number of occurrences of each summarized item. An item with a value of zero indicates that issue does not exist and data is believed to be correct. Items with a number greater than zero indicates an issue with the data requiring review or for some instances (such as students with the same name, students with no enrollment records, etc), some data shows odd similarities or inconsistencies which should be reviewed to ensure accuracy.

The occurrences total is hyper-linked and will bring the user to the detail section of the report.

## Total Column

The Total column provides a total number of records reviewed per symptom when generating the report.

## Rate Column

This column indicates the total percentage of records per symptom that were flagged as an occurrence and may contain erroneous data. Another way to look at this is the estimated percentage of erroneous data per symptom.

## Audit Report Detail Section

The detail section provides additional information on the summarized item. The detailed columns vary with each summarized item. If there are no errors listed in the Summary section of the report, the item will not be listed in the Detail section.

Students who have the same student number							
Student Number	First Name	Last Name	Gender	Birth Date	Most Recent School	Year	Grade
100001	David		M		High School	13-14	09
100001	Dominique		F		High School	09-10	11
100001	Joseph		M		High School	14-15	10
100001	Parker		M		High School	14-15	10
100001	James		M		High School	14-15	03
100001	Yolanda		F		High School		
100001	Alana		F		High School	06-07	12
100001	Alanna		F		High School	05-06	11
100001	Matthew		M		High School	05-06	10
100001	Matthew		M		High School	01-02	06

[Back To Summary](#)

[Back To Summary](#)

At any time, the user can select the Back to Summary link and return to the list of items included in the summary.

The following table provides the field names of the items listed in the report and related definitions:

Column	Definition
<b>Address</b> <b>Address 1</b> <b>Address 2</b>	Location of where student resides.
<b>Birth Date</b>	Date of birth for the person (student, parent, staff, etc).
<b>Calendar</b>	Calendar of enrollment.

Column	Definition
<b>Cell Phone</b>	Person's cell phone number.
<b>City/State/Zip City/State/Zip 1 City/State/Zip 2</b>	Residence location for mailing purposes.
<b>Course</b>	Class into which a student is enrolled, also referred to as section.
<b>Credit Type</b>	Category of achievement (English, Mathematics, Technology, etc) to which a course is assigned.
<b>Credits Attempted</b>	Total number of credits attempted by the student when enrolled in the course.
<b>Credits Earned</b>	Total number of credits student earned by successful completion of the course.
<b>Enrolled Calendar</b>	Calendar in which the student is enrolled.
<b>Enrolled School</b>	School in which the student is enrolled.
<b>First Name</b>	Legal first name of student, parent/guardian, staff, etc.
<b>Gender</b>	Indication of person being either Male or Female.
<b>Grade</b>	Grade level of enrollment.
<b>Home Phone</b>	Designated phone number at residence.
<b>Household</b>	Name of household.
<b>Last Name</b>	Legal last name of student, parent/guardian, staff, etc.
<b>Max GPA</b>	Maximum GPA that can be achieved by the student.
<b>Middle Name</b>	Legal middle name of student, parent/guardian, staff, etc.
<b>Most Recent School</b>	School in which student has the most recent enrollment record.
<b>Name</b>	Name of individual, family, course section, etc.
<b>Phone Number</b>	Contact number at home (usually).
<b>Roster Calendar (Enrolled)</b>	Calendar in which the student is scheduled.
<b>Roster School (Enrolled)</b>	School in which the student is enrolled.
<b>School</b>	School of enrollment for the student.
<b>Section</b>	Number of the course section.
<b>SSN</b>	Federally assigned Social Security number.
<b>State ID</b>	State-assigned identification number.
<b>Student Number</b>	School- or district-assigned identification number.

Column	Definition
<b>Term</b>	Calendar section broken into parts - often a quarter, trimester, semester, etc.
<b>Unweighted GPA</b>	GPA value with no additional points.
<b>Weighted GPA</b>	GPA value with additional point.
<b>Year</b>	Calendar year (2008-09, 2009, etc.).

## Student Symptoms

The following information is related to student data.

### Students who have no Student Number

**PATH:** *Student Information > General > Demographics > Person Identifiers > Local Student Number*

The Student Number is a unique identifying number assigned to each student in a school/district. It is used within Campus primarily for tracking and state reporting purposes.

The student number will stay with the student for his/her tenure in the district even if he/she moves from school to school.

### Student who have the Same Student Number

**PATH:** *Student Information > General > Demographics > Person Identifiers > Local Student Number*

Duplications of student numbers will cause issues in state reporting, student searches and syncing. Data integrity is lost when multiple students have the same number.

A system preference exists that will automatically assign a student number for newly enrolled

students. Having this preference enabled reduces future issues with duplicate student numbers.

## Current year students who have no State ID

**PATH:** *Census > People > Demographics > Person Identifiers > Student State ID*

State IDs are assigned to each student and are historically maintained. Departments of education typically assign this number, as it is used extensively in state reporting. All students should have a state ID.

## Students who have the same State ID

**PATH:** *Census > People > Demographics > Person Identifiers > Student State ID*

Multiple students cannot share the same state ID, as this number is used extensively in state reporting and duplicates will cause a variety of data integrity issues.

If two different students share the same number, clarification should be made by the appropriate department of education. If the same student exists within Campus twice, the Combine Student Wizard may be used to combine the two records into one.

A preference exists that will automatically assign a state ID number for newly enrolled students (System Administration > Preferences > Student Number Format).

## Students who have the exact same name and birth date

**PATH:** *Census > People > Demographics > Person Information > Last Name, First Name, Birth Date*

In large districts, it is entirely possible to have students with the same name and birth date. However, it is necessary to review these individuals for accuracy. While these students may have the same name birth date, other issues may be causing the duplication (e.g., different student numbers, different state ID numbers).

The screenshot shows the 'Demographics' tab in the Infinite Campus system. Under 'Person Information', the PersonID is 357594. The form includes fields for Last Name (Tester), First Name (Student), Middle Name, Suffix, Gender (Male), Birth Date (09/20/2001), and Soc Sec Number. The Birth Date field is highlighted with a red box. Below these fields, there is a section for Race/Ethnicity (Eon) with Federal Designation: 6:White, Race(s): White, and Hispanic/Latino: N:No. A 'No Image Available' message is also present.

## Students who have similar names

**PATH:** *Census > People > Demographics > Person Information > Last Name, First Name*

It is important to ensure students with similar names are not in fact the same person incorrectly duplicated within Campus. Duplicated students can impact state reporting data and confuse who and how data is stored between the students.

Student State ID: |

Local Staff Number: |

Staff State ID: |

Person GUID: 71F37D1D-F37F-4487-8D8F-526741C8E43B

## Students who have no Enrollments

**PATH:** *Census > People > Enrollments*

Persons entered into Campus fall into three categories, students, staff and persons. The differentiating factor is the existence of a student number (which turns a person into a student) and a staff number (which turns a person into a staff member).

When a student has a student ID number there is usually an accompanying enrollment record. If there is a student number but no enrollment record, an error may be displayed.

# Census Symptoms

The following information relates to Census data.

## People who have the same Social Security Number

**PATH:** *Census > People > Demographics > Person Information > Social Security Number*

Social Security numbers are identifiers for individuals born in or working in the United States. Legitimate duplication of social security numbers is possible but not common. This error usually is a result of the duplication of an individual within the system or data entry error.

State Race/Ethnicity: | Federal Designation: No Data | Race(s):

## Active Students who have no Guardian

**PATH:** *Student Information > General > Relationships*

Guardian relationships allow parents and guardians to have access to their children's information, particularly through the Portal. Several student reports and mailing reports rely on the guardian information to generate.

Students should have at least one guardian.

**Relationships** | Demographics | Identities | Households | Enrollments | District Employment

## Active Students Not in a Household

**PATH:** *Student Information > General > Households*

Households are useful in establishing guardian and sibling relationships. As with guardian information, students not in a household may be missing from reports, causing items to not

generate.

## Active Students in Households by Themselves

**PATH:** *Census > Household > Members*

For general household creation, a student should not be in a household without a guardian. There are instances where a student may be an emancipated minor, a foster child or have other extenuating circumstances. However, as a standard practice, a student should be part of a household with at least one guardian assigned.

Image 18: Household Members

## Active Students who do not have a Mailing Address

**PATH:** *Census > Households > Addresses*

Mailing addresses are used to send information to students' homes and are therefore useful in school/parent communication. Mailing addresses should be established; doing so will ensure the parent/guardian receives all information that is mailed.

## People in more than One Household

**PATH:** *Census > People > Households*

A person, whether a student, staff person or guardian, can be in more than one household. This flexibility provides for easy maintenance of complex family structures. However, this should be reviewed for accuracy as mis-entry is possible.

## Contacts who have accessed the parent portal

**PATH:** *Campus Parent Portal; Census > People > Relationships > Portal*

This report lists all student contacts who have accessed their Campus Parent Portal account. In order for a contact to access the [Parent Portal](#) for a student, they must have a Portal account created for them and be marked as Portal on the [Relationship record](#) of the student.

**Student, Adrian L**

## Scheduling Symptoms

The following information relates to Scheduling data.

### Student's Grade Level not Found in Calendar

**PATH:** *System Administration > Calendar > Grade Levels*

This error occurs when newly imported student enrollment information has not yet been mapped to existing grade levels within that calendar. Student's grade levels should be changed to fit the calendar within which they are enrolled.

**13-14 Harrison High**

Calendar **Grade Levels** Schedule Structure

+ New

Grade Level Editor	
Name	Seq
09	10
10	11
11	12
12	13

Grade levels can be deleted from the calendar when an enrollment exists with that deleted grade level. The enrollment record will not have a grade level assigned.

### Sections with No Schedule

**PATH:** *Scheduling > Courses > Section > Section Schedule Placement*

Course sections are scheduled into already established schedule structures. This report details the course sections that do not have designated meeting times within the school day.

## Roster Record not in the Same Calendar as Student's

# Enrollment

**PATH:** *Student Information > General > Enrollments*

This error occurs when a student is enrolled in a calendar and scheduled into course sections, but is moved to another calendar, causing orphaned section assignments.

# Discrepancy Between Age and Grade Level

**PATH:** *Census > People > Demographics; Student Information > General > Enrollments*

It is a general assumption that students in a certain grade level are between a certain age (kindergarten students are 5 or 6). The existence of this error indicates students are either below the general age range or over the general age range for the grade level into which the student is enrolled.

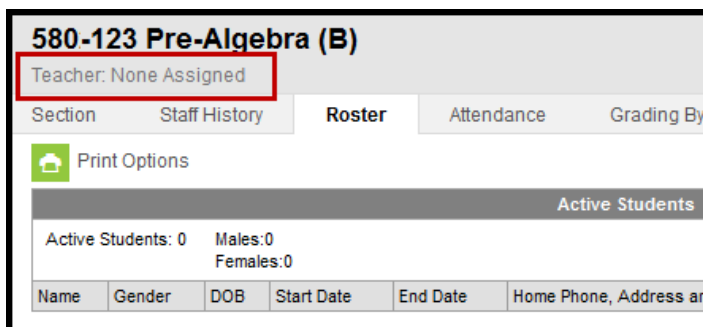

Age is a calculated field based on the entered birth date.

## Section with no Teachers

**PATH:** *Scheduling > Courses > Sections > Roster*

When a section of a course does not have a primary teacher assigned to it, the section will appear in this report.

## Sections with no Students

**PATH:** *Scheduling > Course > Section > Roster*

This section provides a list of course sections that do not have any students scheduled in them.

## Unweighted GPA Value Higher than Weighted

**PATH:** *Student Information > General > Transcript*

Weighted grades allow more difficult courses to have a greater impact on a student's overall GPA. Therefore, weighted values should be higher than unweighted values. Otherwise, the value of earned credits is decreased.

Courses Taken 2012-2013 Grade 10											
	Course	Standard	Repeat Course	Mark	GPA Value		Bonus	GPA Wt.	Credit/Category.	Term	Comments

## Weighted GPA Value Higher than Max

**PATH:** *Student Information > General > Transcript*

The GPA value is higher than the maximum allowed GPA value. This may be correct if the school awards additional GPA points for students in accelerated courses (e.g., AP), but it should be verified.

Courses Taken 2012-2013 Grade 10

## Behavior Symptoms

The following information relates to Behavior data.

### Current year events without resolutions

**PATH:** Behavior > Behavior Management

It is important to review current year active behavior events that have not yet been assigned a behavior resolution. These events are considered open and unresolved and may be missing resolution information.

Behavior Management								
Incident Management Editor		Title	Date/Time	Location	Context	Submitted By	Status	Locked
Complete Test			03/08/2017 12:24 PM	Classroom		Administrator, System	CM	🔒

Fighting			09/13/2016 7:10 AM	School Bus	Outside School Hours	Staff, Christa	CM	🔒
Abusive language			09/12/2016 1:15 PM	Classroom	During School Hours	Staff, Christa	CM	🔒
Possession of drugs			09/07/2016 8:09 AM		During School Hours	Staff, Poppy	CM	🔒
Possession of drugs			06/17/2016 12:10 PM	Classroom	During School Hours	Staff, Mike	CM	🔒

### Prior year events without resolutions

**PATH:** Behavior > Behavior Management

It is important to review prior year active behavior events that have not yet been assigned a behavior resolution as these events could very well be missing resolution data and have not been properly closed.

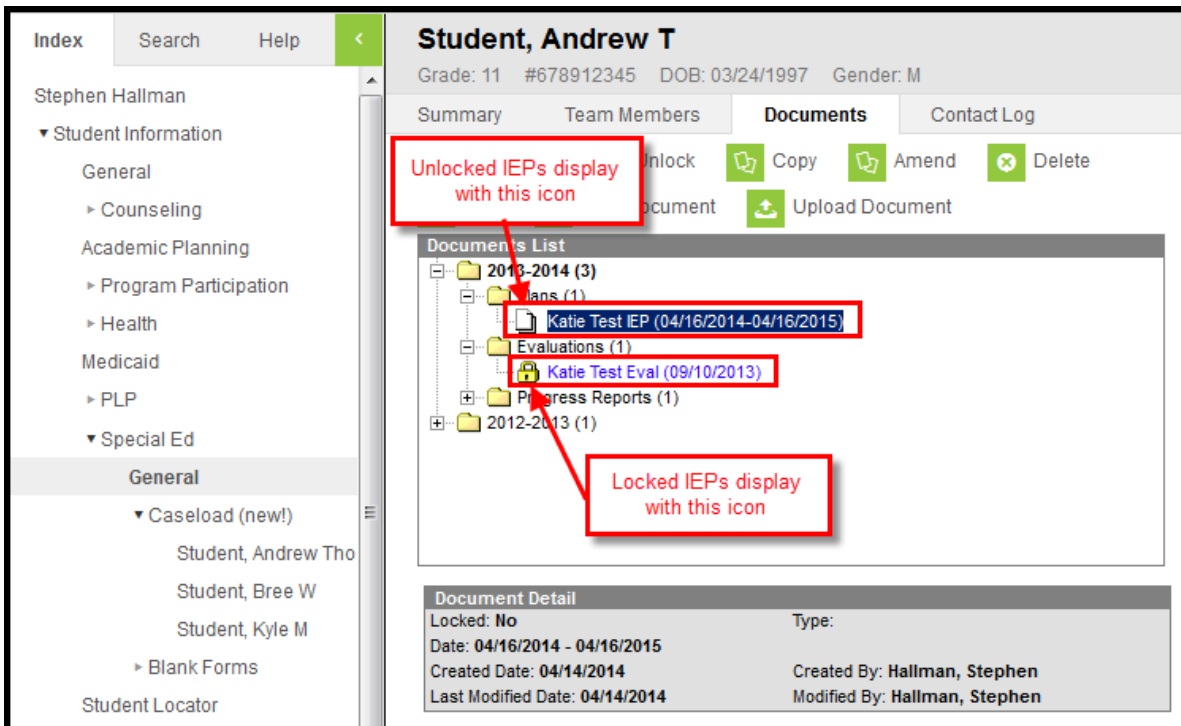

## Special Education (Sped) Symptoms

The following information relates to Special Education data.

### Current year enrollments that have unlocked IEPs

**PATH:** *Student Information > Special Ed > General > Documents > IEP*

Once a Special Ed plan or evaluation is complete, the IEP should be locked to prevent additional modifications. It is important to review existing unlocked IEPs and lock any of those that no longer require modification.

### Prior year enrollments that have unlocked IEPs

**PATH:** *Student Information > Special Ed > General > Documents > IEP*

It is important to review existing unlocked IEPs and lock any of those that no longer require

modification. This is especially true of prior year enrollment IEPs as they have been unlocked for a long period of time, indicating a strong likelihood these IEPs should be locked.
