Enrollments (Indiana)

Tool Search: Enrollments

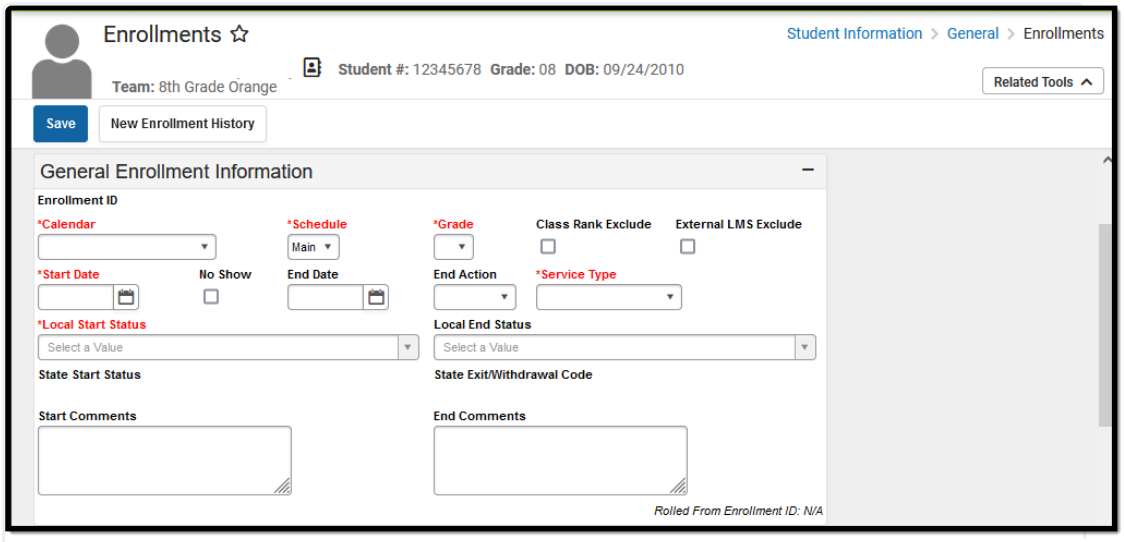

The Enrollment tool displays all occurrences of a student's enrollment in the district. Because this is an historical view, this list could be long.

Enrollments are first sorted by grade level, then by the enrollment start date. To reorder the list of enrollments, click the blue headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date, or End Date.

See the core Enrollments article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Enrollment records.

General Enrollment Information

Under General Enrollment Information, **both the Local Start Status and Local End Status fields are unique to Indiana**. **State reporting also relies heavily on the Service Type when populating reports.** These fields are further described below. **All other fields in General Enrollment Information do not require unique, state-specific data.** However, many of these fields are required, and data entry is necessary. For more information on these fields, see the Enrollments article.

Start Status

Start Status indicates the reason for beginning the student enrollment, whether entering the school or district or continuing on from another grade. When creating an enrollment for a student, students must have a Start Date and a Start Status. An enrollment cannot be saved without an entry in these fields.

Two options are available:

- 01: Enrolled
- 02: Retained

End Status

The End Status indicates the reason a student's enrollment ends in the school. **Enrollments with an end date must also have an End Status**. However, this condition does not apply if the No Show checkbox is marked. If the No Show checkbox is marked, an End Status can be entered without an End Date.

No Show

A no show student is defined as a student who is enrolled in the school but never attends class and does not officially withdraw from the school. These enrollment records are ended after a certain number of school days, depending on district and/or state policy. See the No Show section on the Enrollments article for more information.

Records are not sent when the No Show checkbox is marked.

State Reporting Fields

Data entries made in the State Reporting Fields section of the Enrollments tool are unique to Indiana and may directly affect how students are reported to the state department of education.

Updates to State Reporting fields will overwrite previously entered data. To preserve this historical information, create a new Enrollment record when changes are needed. Deleting an Enrollment record is NOT recommended.
