[State Reporting Detail Editor](#)

Tool Search: State Reporting

The State Reporting tool allows users to store and manage student Special Education state reporting data. Information recorded on this tool removes the legal burden of having a Special Ed team meeting for an amendment to the setting for age-based changes such as an early childhood student aging out.

Anytime a student enters a new Special Ed Setting, a State Reporting record needs to be created. State Reporting records cannot overlap.

See the core [SPED State Reporting](#) article for information on necessary tool rights and guidance on adding SPED State Reporting or Setting records.
