Tool Search: MOSIS Extracts

The Career and Technical Student Organizations (CTSO) Extract reports department-approved career education programs, and is collected in June. CTSOs provide students with leadership skills, career competency, community service and school service.

The screenshot shows the MOSIS Extracts tool interface. At the top, there is a search bar and the Infinite Campus logo. Below the logo, the title "MOSIS Extracts" is displayed with a star icon. A breadcrumb trail shows "Reporting > MO State Reporting > MOSIS Extracts". The main content area is divided into two sections. On the left, under the heading "MOSIS Extracts", there is a description: "This tool will extract data to complete several types of the MOSIS Phase III reporting collections. Choose the State Format to get the file in the state defined comma separated file format, otherwise choose one of the testing/debugging formats. Please be aware of the date range selection, it is recommended to report from the first calendar day to the current day." Below this, the "Extract Options" section includes: "Extract Type" set to "CTSO", "Reporting Period" set to "June", "Report Protected Identities" (unchecked), "Report State Excluded Students" (unchecked), "Effective Date" set to "11/11/2020", "Ad Hoc Filter" (empty), and "Format" set to "State Format(CSV)". A "Generate Extract" button is at the bottom of this section. On the right, the "Select Calendars" section asks "Which calendar(s) would you like to include in the report?". It has three radio buttons: "active year" (selected), "list by school", and "list by year". Below these, a list of schools for the "20-21" school year is shown, with "20-21 Chowen Middle" selected. The list includes: "20-21 Abbott Elementary", "20-21 Baird Elementary", "20-21 Chowen Middle", "20-21 Drew Middle", "20-21 Ewing High", and "20-21 Fremont High".

Report Logic

Flag Setup

The following Flag codes must match exactly, along with the State Reported and Active checkboxes marked, in order to report.

Students report when they are assigned a flag of the following within the school year being reported:

- DECA program flag Code must be **DECA**
- EdRising program flag Code must be **EDR**
- FBLA program flag Code must be **FBLA**
- FCCLA program flag Code must be **FCCLA**
- FFA program flag Code must be **FFA**
- HOSA program flag Code must be **HOSA**
- Pathways program flag Code must be **Pathways**
- SkillsUSA program flag Code must be **SkillsUSA**
- TSA program flag Code must be **TSA**

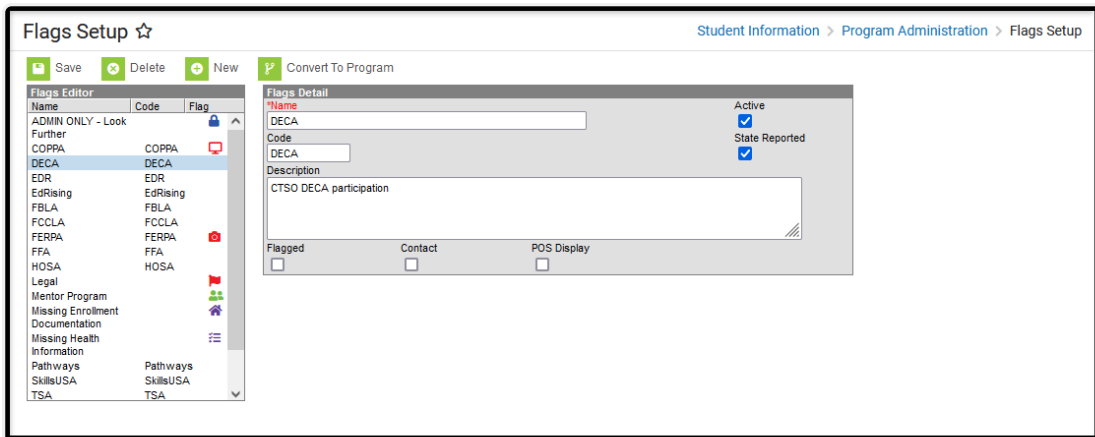

The code assigned on the flag (see articles listed below) **MUST** be one of these options in order for the student to report.

The following articles provide more information on flags:

- See the [Flags](#) article for information on creating flags.
- See the [Flags \(Student\)](#) article for information on assigning flags to students.
- See the [Batch Assignment Tool](#) article for mass assignment of flags.

The flag start date must be within the report generation Effective Date and the School Term Start Date.

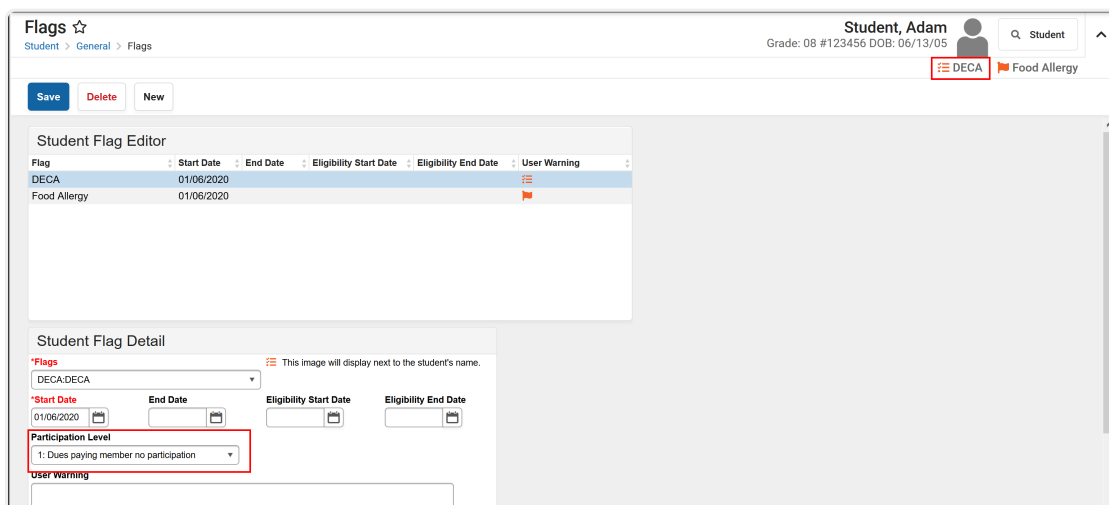

Flags must be marked for State Reporting. A sample flag may look like this:

Creating Flags for CTSO

This selected flag displays a flag image, which means when it's assigned to a student, a flag icon displays next to the student's name. The name of the flag and the assigned Participation Level (see the following list of available options) reports.

- 0 - No Participation
- 1 - Dues paying member, no participation
- 2 - Low level of participation less than 25%
- 3 - Medium level of participation 25-75%
- 4 - High level of participation greater than 75%

Student Flag Assignment

Student Information

One record reports for the school of enrollment as of the effective date or the last school enrollment (if there is no enrollment on the effective date).

If the student is enrolled in multiple schools and the flag end date is null or after the effective date, the school of the latest enrollment reports or the last enrollment if the student is no longer enrolled.

If the student is assigned a flag that ends before the effective date but the selected calendars overlap with the start of a new flag, those flags report.

If the student has multiple records with the same flag name with different levels of participation and both flags are active (no end date), multiple records report listing the varying levels of participation and flag start dates.

Primary enrollments report. If there is no primary enrollment, secondary and special education enrollments report. If the student has multiple concurrent enrollments of the same type, the latest enrollment reports.

Students do not report when:

- Their enrollment record is marked as State Exclude or No Show.
- The grade level of enrollment is marked as State Exclude.
- The calendar of enrollment is marked as State Exclude.

Report Editor

Field	Description
Extract Type	Selection determines which extract generates. For this report, choose CTSO.
Reporting Period	Indicates the section of the school year for which student data is being reported. CTSO is only reported in the June Reporting Period.
Report Protected Identities	When marked, student identity information (last name, first name, etc.) reports from the Protected Identity Information fields.
Report State Excluded Students	When marked, students who meet the report population requirements but their enrollment record is marked as State Exclude report along with all other records. When not marked, students marked as State Exclude on their enrollment record are excluded from the report.
Effective Date	Entered date is used to return students who were enrolled as of that date. The current date is pre-populated, but can be modified by entering a new date in <i>mmdyy</i> format or by using the calendar icon to select a date.
Ad hoc Filter	Selecting an ad hoc filter limits the students reported to only those in the filter.
Format	The extract can be generated in CSV, HTML, Tab Delimited or XML. Use the State Format (CSV) when submitting the extract to the state; use the other formats for testing and data review prior to state submission.
Select Calendars	At least one calendar must be selected in order to generate the extract. Calendars can be chosen by Active Year, School Year or Year.

Generate the CTSO Report

1. Select the **CTSO Extract Type**.
2. Select the **Reporting Period**.
3. Mark the **Report Protected Identities** checkbox, if desired.
4. Mark the **Report State Excluded Students** checkbox, if desired.
5. Enter the desired **Effective Date**.
6. Select any applicable **Ad hoc Filters**.
7. Select the **Format** of the extract.
8. Select which **Calendar(s)** to include within the extract.
9. Click the **Generate Extract** button.
