Tool Search: Kindergarten Readiness

The Kindergarten Readiness Report provides a summary of each Kindergarten student's information, based on the fields selected on the Kindergarten Readiness tool. Data needs to be entered on the Kindergarten Readiness tool and the report needs to be generated within the first 60 days of the school year.

Kindergarten Readiness Extract

Read - Access and generate the Kindergarten Readiness Extract.
Write - N/A
Add - N/A
Delete - N/A

For more information about Tool Rights and how they function, see the [Tool Rights](#) article.

Report Logic

The report aggregates students by number of domains (options marked on the [Kindergarten Readiness](#) tool) and demographic data (student gender, eligibility, race/Ethnicity) for those students enrolled in **State Grades 006: Half Day Kindergarten** and **007: Full Day Kindergarten**.

Students are first grouped by each Kindergarten Readiness domain:

- **NONE** - students without any domains selected
- **PHYS** - students with the **Physical** domain selected
- **SOC** - students with the **Social-Emotional** domain selected
- **LANG** - students with the **Language** domain selected
- **COG** - students with the **Cognition** domain selected
- **MATH** - students with the **Math** domain selected
- **LIT** - students with the **Literacy** domain selected

Students are then grouped by Gender, Eligibility, and Race/Ethnicity for each Kindergarten domain.

Report Editor

| Field	Description
Effective Date	This date is used to determine certain data eligibility. If a student has an enrollment start date that is after the entered effective date, a record is not reported for the student. If the student ends an enrollment prior to the effective date and the student has a Special Education Discipline Event, a record is reported for the student. The field is auto-populated with the current date, but can be changed by using the calendar icon to select a date or entering a new date in *mmddyy* format.
Report Using Legal Gender	When marked, the student's gender reports from the Protected Identity Information section on the student's Identities record.
Ad hoc Filter	Select a saved ad hoc filter to only include those students in the filter in the report, assuming those students meet the reporting logic and business rules of the report.
Format	Selection determines whether the extract generates in the CSV or HTML format.
Calendar Selection	At least one calendar needs to be selected in order to generate the report. Calendars can be selected by the active year, by school name or by year. Only calendars that include the State Grade levels of 006 and 007 are available for selection. When a calendar is selected in the Campus toolbar, that calendar is automatically selected for the extract IF that calendar includes the State Grade levels mentioned above.
Report Generation	The Student Layout extract can be generated immediately using the **Generate Report** button. Or, use the **Submit to Batch** button to select when the report is generated. See the Batch Queue article for more information on this functionality.

Generate the Report

1. Enter the desired **Effective Date**.
2. Mark the **Report using Legal Gender** checkbox, if desired.
3. If desired, select students from an existing **Ad hoc Filter**.
4. Select the **Format** of the report.
5. Select the **Calendar(s)** from which to report information.
6. Click the **Generate Extract** button or use the **Submit to Batch** button. The report displays in the desired format.

Report Layout

Data Element	Description	Location
School District Code or BOCES Codes	Reports the number assigned to a school district by the state department of education. *Numeric, 4 digits*	District Information > District Information > State District Number District.number
School Code	Reports the number assigned to the school by the state department of education. *Numeric, 4 digits*	School Information > State School Number School.number

Data Element	Description	Location
Total Number of Students	Reports the total number of students enrolled in the selected school. *Numeric, 4 digits*	Calculation, data not stored
Domain	Reports the name of each domain available for selection on the Kindergarten Readiness editor, seven rows for each calendar selected: • NONE • PHYS • SOC • LANG • COG • MATH • LIT *Alphanumeric, 4 characters*	Kindergarten Readiness
Total Number of Students in Each Domain	Reports the total number of students who have the domain marked on the Kindergarten Readiness tool. *Numeric, 3 digits*	Kindergarten Readiness Calculation, data not stored
Total Number of Female Students in Each Domain	Reports the total number of female students who have the domain marked on the Kindergarten Readiness tool. *Numeric, 3 digits*	Kindergarten Readiness Identities > Gender, Legal Gender = Female Calculation, data not stored
Total Number of Male Students in Each Domain	Reports the total number of male students who have the domain marked on the Kindergarten Readiness tool. *Numeric, 3 digits*	Kindergarten Readiness Identities > Gender, Legal Gender = Male Calculation, data not stored
Total Number of Non-Binary Students in Each Domain	Reports the total number of non-binary students who have the domain marked on the Kindergarten Readiness tool. *Numeric, 3 digits*	Kindergarten Readiness Identities > Gender, Legal Gender = Non-Binary Calculation, data not stored

Data Element	Description	Location
Total number of students not eligible for free and reduced lunch	Reports the total number of students in each domain with a FRAM Eligibility record of Paid, Non-Reimbursed. *Numeric, 3 digits*	Kindergarten Readiness FRAM > Eligibility Calculation, data not stored
Total number of students eligible for free and reduced lunch	Reports the total number of students in each domain who also have a FRAM Eligibility record of free and reduced. *Numeric, 3 digits*	Kindergarten Readiness FRAM > Eligibility Calculation, data not stored
Total number of students whose eligibility is unknown for free and reduced lunch	Reports the total number of students in each domain who do not have a FRAM Eligibility record. *Numeric, 3 digits*	Kindergarten Readiness FRAM > Eligibility Calculation, data not stored
Total number of Hispanic or Latino students in Domain	Reports the total number of students in each domain who have a Hispanic or Latino race/ethnicity. *Numeric, 3 digits*	Kindergarten Readiness Identities > Race/Ethnicity > Is the individual Hispanic/Latino? = Y:Yes Calculation, data not stored
Total Number of American Indian Students in Domain	Reports the total number of students in each domain whose race/ethnicity is American Indian or Alaska Native (federal designation = 2). *Numeric, 3 digits*	Kindergarten Readiness Identities > Race/Ethnicity > American Indian or Alaska Native Calculation, data not stored
Total Number of Asian Students in Domain	Reports the total number of students in each domain whose race/ethnicity is Asian (federal designation = 3). *Numeric, 3 digits*	Kindergarten Readiness Identities > Race/Ethnicity > Asian Calculation, data not stored

Data Element	Description	Location
Total Number of Black Students in Domain	Reports the total number of students in each domain whose race/ethnicity is Black or African American (federal designation = 4). *Numeric, 3 digits*	Kindergarten Readiness Identities > Race/Ethnicity > Black or African American Calculation, data not stored
Total Number of White Students in Domain	Reports the total number of students in each domain whose race/ethnicity is White (federal designation = 6). *Numeric, 3 digits*	Kindergarten Readiness Identities > Race/Ethnicity > White Calculation, data not stored
Total Number of Native Hawaiian Students in Domain	Reports the total number of students in each domain whose race/ethnicity is Native Hawaiian or Other Pacific Islander (federal designation = 5). *Numeric, 3 digits*	Kindergarten Readiness Identities > Race/Ethnicity > Native Hawaiian or Other Pacific Islander Calculation, data not stored
Total Number Two or more Races in Domain	Reports the total number of students in each domain who have multiple races/ethnicities marked (federal designation = 7). *Numeric, 3 digits*	Kindergarten Readiness Identities > Race/Ethnicity Calculation, data not stored
Total Number of Students whose Race is Unknown in Domain	Reports the number of students in each domain whose race is not marked. *Numeric, 3 digits*	Kindergarten Readiness Identities > Race/Ethnicity Calculation, data not stored
