Tool Search: SLDS

The Student Section Results extract collects the scores the student received in a course and aims to enhance Vermont's ability to efficiently and accurately manage, analyze, and use education data.

Report Logic

Students who have any enrollment in the calendar that is before the entered Effective Date are included in the report, unless their enrollment record is marked as State Exclude.

The Course must have a SCED code assigned to it to be included (Scheduling > Courses > Course > NCES Data > NCES Code).

Students must have a State Grade assigned to them.

Students must have a grading task or standard marked as State Reported.

Report Editor

Field	Description
Submission Code for File Name	Indicates the report naming convention based on the submission time frame of the report.

Field	Description
Extract Type	Indicates which extract generates. For this instance, select 14a Stu Section Enrollment .
Effective Date	Indicates the date from which data is pulled for the report. This field auto-populates with the current date; use the calendar icon to select a new date or enter a new date in <i>mmddyy</i> format.
Format	Determines the format for the report. Use State Submission when submitting the final data. Use HTML for data review and testing.
Report Legal Identities	When marked, the student or staff name and gender report from the Protected Identities Information on the Identities record.
Select Calendars	The calendar(s) from which data is pulled for the report. This option is only available when generating the <i>HTML</i> for the File Format and can assist with verifying data for individual calendars.
Generate Report Submit to Batch	Users have the option of submitting the report request to the batch queue by clicking Submit to Batch instead of Generate Extract . This process allows larger reports to generate in the background without disrupting the use of Campus.

Generate the Report

1. Select the appropriate **Submission Code for file name** from the dropdown.
2. Select **15 Student Sec Results** for the **Extract Type**.
3. Enter the desired **Effective Date**.
4. Select the desired **Format**.
5. If desired, mark the **Report Legal Identities** checkbox.
6. If generating in HTML Format, select the desired **Calendars** from which to report data.
7. Click the **Generate Report** button. The report displays in the selected format.
