Tool Search: Campus Learning Usage

The Campus Learning Usage tool tracks how staff are using tools in the Campus Learning offerings. Filter results by selecting a School and Calendar in the Campus Toolbar or view usage for the entire district.

Totals for the School or District are shown in the top table, with totals for individual teachers in the second table.

The screenshot shows the 'Campus Learning Usage' tool interface. At the top, there is a navigation bar with icons for three, a search bar, the Infinite Campus logo, the school name '23-24 Harrison High', and various settings. Below the navigation bar, the title 'Campus Learning Usage ☆' is displayed, along with a breadcrumb trail: 'Instruction > Settings > Campus Learning Usage'. The interface is divided into two main sections: 'Total 23-24 School Year Counts' and '23-24 School Year Teacher Counts'. The first section contains a table with columns for 'Assignments' (2,837), 'Grading Services' (0), and 'Curriculum Content' (Summary and Student Notes: 1260, Teacher Notes: 1,068, Campus File Attachment: 242, Google Drive File Attachment: 136). The second section contains a table for teachers, with rows for Lifelearn, Brian; Backes, Pearce; and Teacherson, Katie. Each teacher row includes columns for 'Teacher' (with a sort arrow), 'Assignments' (340, 330, 256), 'Grading Services' (0, 0, 0), and 'Curriculum Content' (Summary and Student Notes: 100, 320, 103, Teacher Notes: 132, 17, 124, Campus File Attachment: 1, 8, 1).

Total 23-24 School Year Counts		Curriculum Content				
Assignments	Grading Services	Summary and Student Notes	Teacher Notes	Campus File Attachment	Google Drive File Attachment	
2,837	0	1260	1,068	242	136	
< >						
23-24 School Year Teacher Counts		Filter Teachers	Export to CSV			
Teacher	Assignments	Grading Services	Summary and Student Notes	Teacher Notes	Campus File Attachment	
Lifelearn, Brian	340	0	100	132	1	1
Backes, Pearce	330	0	320	17	8	8
Teacherson, Katie	256	0	103	124	1	1

The Campus Learning Usage tool provides totals for school staff using Campus Learning features.

See the [Instruction Settings Tool Rights](#) article for more information.

Column Definitions

Counts are provided for the following features, which are also described in the Column Definitions link:

Feature	Description
Assignments	A base count of all assignments.

Feature	Description
Grading Services	Assignments received from an 3rd party learning management system (LMS) through a Digital Learning Partner connection to the OneRoster API .
Curriculum Content	Files attached to assignments.
Summary and Student Notes	Assignments that have content in the Summary and Notes fields, which are visible in student and parent views.
Teacher Notes	Assignments that have content in the Teacher Notes field, which is visible only to teachers when looking at the assignment.
Campus File Attachment	Assignments with a file attached that is stored in the Campus Digital Repository (CDR). This field counts both files attached in For Students to be accessible in student views and those attached in For Teachers, which are only visible in the assignment.
Google Drive File Attachment	Assignments with a google drive file attached. This field counts both files attached in For Students to be accessible in student views and those attached in For Teachers, which are only visible in the assignment.
Student Submission	Enabled options allowing students to submit responses.
File Attachment	Assignments set up to accept student responses via files stored in the CDR.
Text Editor	Assignments set up to receive student responses via a text editor.
Google Drive	Assignments set up to receive student responses via google drive files.
Quick Assessment	Assignments that include Quick Assessments .

Data Analysis Options

The Teacher Counts table can be sorted numerically by any of the feature columns.

Click **Filter Teachers** to add a search field to the top of the list.

Click **Export to CSV** to export the table as currently displayed as a CSV file, to be viewed using a program such as Excel.
