

Campus Learning Usage

Last Modified on 02/19/2025 11:30 am CST

Tool Search: Campus Learning Usage

The Campus Learning Usage tool tracks how staff are using tools in the Campus Learning offerings. Filter results by selecting a School and Calendar in the Campus Toolbar or view usage for the entire district.

Totals for the School or District are shown in the top table, with totals for individual teachers in the second table.

Total 23-24 School Year Counts		Curriculum Content			
Assignments	Grading Services	Summary and Student Notes	Teacher Notes	Campus File Attachment	Google Drive File Attachment
2,837	0	1260	1,068	242	136

Teacher	Assignments	Grading Services	Curriculum Content	
			Summary and Student Notes	Teacher Notes
Lifellearn, Brian	340	0	100	132
Backes, Pearce	330	0	320	17
Teacherson, Katie	256	0	103	124

The Campus Learning Usage tool provides totals for school staff using Campus Learning features.

Campus Learning Usage tool rights grant full access to the tool.

Column Definitions

Counts are provided for the following features, which are also described in the Column Definitions link:

Feature	Description
Assignments	A base count of all assignments.

Feature	Description
Grading Services	Assignments received from an 3rd party learning management system (LMS) through a Digital Learning Partner connection to the OneRoster API .
Curriculum Content	Files attached to assignments.
Summary and Student Notes	Assignments that have content in the Summary and Notes fields, which are visible in student and parent views.
Teacher Notes	Assignments that have content in the Teacher Notes field, which is visible only to teachers when looking at the assignment.
Campus File Attachment	Assignments with a file attached that is stored in the Campus Digital Repository (CDR). This field counts both files attached in For Students to be accessible in student views and those attached in For Teachers, which are only visible in the assignment.
Google Drive File Attachment	Assignments with a google drive file attached. This field counts both files attached in For Students to be accessible in student views and those attached in For Teachers, which are only visible in the assignment.
Student Submission	Enabled options allowing students to submit responses.
File Attachment	Assignments set up to accept student responses via files stored in the CDR.
Text Editor	Assignments set up to receive student responses via a text editor.
Google Drive	Assignments set up to receive student responses via google drive files.
Quick Assessment	Assignments that include Quick Assessments .

Data Analysis Options

The Teacher Counts table can be sorted numerically by any of the feature columns.

Click **Filter Teachers** to add a search field to the top of the list.

Click **Export to CSV** to export the table as currently displayed as a CSV file, to be viewed using a program such as Excel.
