Tool Search: Campus Learning Usage

The Campus Learning Usage tool tracks how staff are using tools in the Campus Learning offerings. Filter results by selecting a School and Calendar in the Campus Toolbar or view usage for the entire district.

Totals for the School or District are shown in the top table, with totals for individual teachers in the second table.

| Total 23-24 School Year Counts | | | | | | |
|--------------------------------|------------------|---------------------------|---------------|------------------------|------------------------------|--|
| Assignments | Grading Services | Curriculum Content | | | | |
| | | Summary and Student Notes | Teacher Notes | Campus File Attachment | Google Drive File Attachment | |
| 2,837 | 0 | 1260 | 1,068 | 242 | 136 | |

| 23-24 School Year Teacher Counts | | | | | | |
|----------------------------------|-------------|------------------|---------------------------|---------------|------------------------|---|
| Teacher | Assignments | Grading Services | Curriculum Content | | | |
| | | | Summary and Student Notes | Teacher Notes | Campus File Attachment | |
| Lifellearn, Brian | 340 | 0 | 100 | 132 | | 1 |
| Backes, Pearce | 330 | 0 | 320 | 17 | | 1 |
| Teacherson, Katie | 256 | 0 | 103 | 124 | | 1 |

The Campus Learning Usage tool provides totals for school staff using Campus Learning features.

Campus Learning Usage tool rights grant full access to the tool.

Column Definitions

Counts are provided for the following features, which are also described in the Column Definitions link:

| Feature | Description |
|-------------------------------------|---|
| Assignments | A base count of all assignments. |
| Grading Services | Assignments received from an 3rd party learning management system (LMS) through a Digital Learning Partner connection to the OneRoster API . |
| Curriculum Content | Files attached to assignments. |
| Student Instructions | Assignments that have content in the Student Instructions field, which is visible in student and parent views. |
| Teacher Notes | Assignments that have content in the Teacher Notes field, which is visible only to teachers when looking at the assignment. |
| Campus File Attachment | Assignments with a file attached that is stored in the Campus Digital Repository (CDR). This field counts both files attached in For Students to be accessible in student views and those attached in For Teachers, which are only visible in the assignment. |
| Google Drive File Attachment | Assignments with a google drive file attached. This field counts both files attached in For Students to be accessible in student views and those attached in For Teachers, which are only visible in the assignment. |
| Student Submission | Enabled options allowing students to submit responses. |
| File Attachment | Assignments set up to accept student responses via files stored in the CDR. |
| Text Editor | Assignments set up to receive student responses via a text editor. |
| Google Drive | Assignments set up to receive student responses via google drive files. |
| Quick Assessment | Assignments that include Quick Assessments . |

Data Analysis Options

The Teacher Counts table can be sorted numerically by any of the feature columns.

Click **Filter Teachers** to add a search field to the top of the list.

Click **Export to CSV** to export the table as currently displayed as a CSV file, to be viewed using a program such as Excel.
