# Ed-Fi v3.X - Student Academic Record Resource Preferences

Last Modified on 11/13/2024 10:58 am CST

Tool Search: Ed-Fi Configuration

The Ed-Fi Configuration tool is used to establish Ed-Fi data resources.

The following describes how to set the resource preferences for the Student Academic Record resource. If the Configure or Edit buttons do not display, then the resource does not need to be mapped and the toggle button can be used to turn the resource on or off.

If a mapping is changed, a resync must be performed on the resource in order for the new mappings to send correctly.

1. The 'Send Data for Current Year Records Only' checkbox is used to allow customers to send transcript data for all years or only the configuration year. When marked, transcript data will only be sent for the configuration year selected in the Ed-Fi Connection. When unmarked, transcript data is sent for all years, regardless of the configuration year selected in the Ed-Fi Connection.

*Send Data for Current Year Records Only checkbox*

2. Select the appropriate **Ed-Fi Code** for the Course Transcripts Term Descriptors.

Any item not mapped will not report to Ed-Fi.

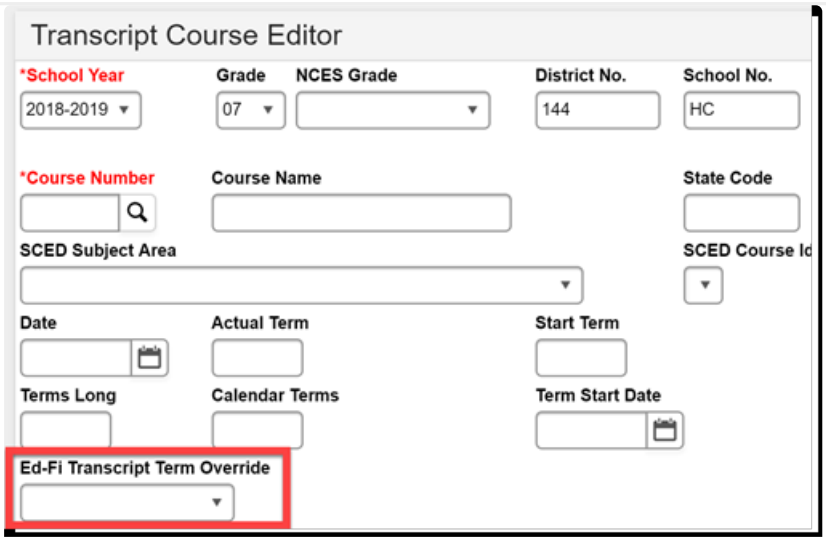
# Additional Information for Student Academic Records

Course Transcript records in Ed-Fi have a required reference to the Student Academic Record resource which requires a Term Descriptor in order to send to the ODS. When Transcript records are manually added to a student's Transcript tab, there is not a calculated way to determine in which term the student completed the course in order to align it to the proper Student Academic Record. There are two ways in which a Term Descriptor can be assigned to a manually added transcript record:

1. Ed-Fi Transcript Term Override field on the Transcript Course Editor:

Copyright © 2010-2024 Infinite Campus. All rights reserved.

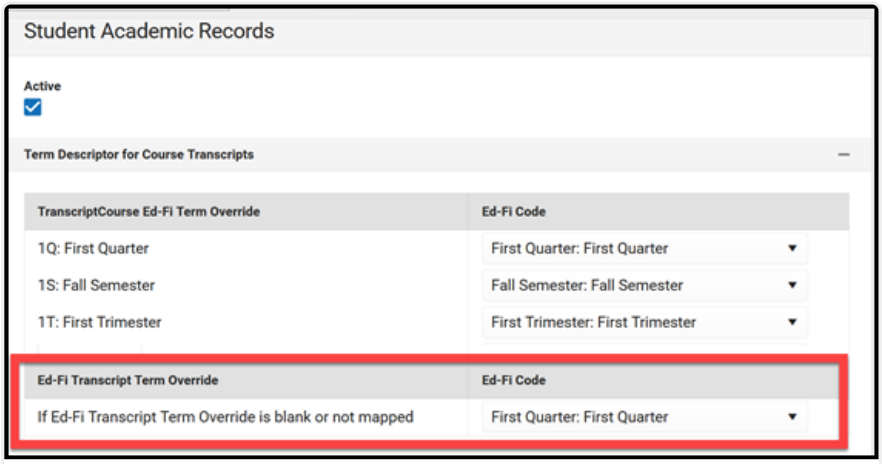


*Ed-Fi Transcript Term Override field*

This field should be used when multiple records for the same course are posted to the student's transcript in the same school year. If all students have only one transcript record per course in a school year, this field does not need to be populated and the Term Descriptor set for the Ed-Fi Transcript Term Override in the Student Academic Record Resource Preferences is used to report.

Example: Student receives a Fall Semester and Spring Semester grade in the same school year for the same course.

2. Set the Ed-Fi Transcript Term Override field on the Student Academic Records Resource Preferences:



*Ed-Fi Transcript Term Override on the Student Academic Records Resource Preferences*

The Term Descriptor selected in the Ed-Fi Code field reports for all manually added transcript records where the Ed-Fi Transcript Term Override field is blank on the transcript record. This override is also used in all previous years transcript records where a valid term descriptor cannot be determined.
