In order for a custom editor to display in the Program Participation area, it must be assigned to display in the **Custom Programs** Person toolset. Follow the instructions provided for creating a [Custom Tool](#). Modify existing custom tabs or create new custom tabs that will display in the Program Participation area.

Custom Tool Setup ☆ System Settings > Custom Data and Links > Custom Tool Setup

### Custom Tool Editor

The Custom Tool Editor allows users to create custom data objects for tracking local or state-level information as well as custom shortcut links which can be added to the main menu.

If moving an existing custom tab from one Person toolset to another Person toolset, you may need to log out after making the change and log back in before the tool will appear in the new location.

When there are no custom programs, a message will display to indicate none exist.
