The Texas TEA Campus Summary Attendance Report is a report that provides information on district wide attendance.

A District, Campus a	Ind Detail Attendance Summary Report
EA Campus Attendanci 1. Campus Summary: 2. CTE: the summary 3. Special Ed: the sum 4. Absence: the summ	e Summary Report includes 4 parts. the summary of membership days, absent days, eligible days grouped by grade levels for students who take career tech. classes. mary for special ed. students. ary of absence for each day.
Report Options	
1. Select Report Typ Report Format	e Campus Summary Attendance V PDF V
2. Select Period Mod	
3. Select Calendars	
4. Select Dates	CTRL-olick and SHIFT-click for multiple
*Start Date *End Date	
5. Select Filters	Grade All Students EE PPCD PK KG
	Ad Hoc Filter
	Generate Report Submit to Batch
Refresh Show to Batch Queue List	op 50 v tasks submitted between 12/06/2019 and 12/13/2019
0	Report Title Status Download

Report Logic

Click here to expand...

This report generates data for any student who is actively enrolled during the Reporting Period and whose ADA eligibility is not equal to 0. A student's ADA eligibility is determined by the attendance accounting system. See the Report Layout for Eligibility Codes.

- Courses with the State Report Exclude option selected on the Courses tab (Scheduling > Courses > Course) do NOT report.
- CTE attendance and V code calculations consider suspensions lasting longer than 5 days. If a student has a state reportable suspension (in school or out of school) within the reporting window that lasts longer than 5 days, any attendance days after the 5th day will be counted as regular (not CTE) and student will report no V codes.
- Attendance entered by the minute is saved to the database as period-based. This means exact time is not reported, only the period in which it falls.
- When calculating CTE attendance days, logic excludes any date contained in a CTE Funding Exempt record that overlaps with the reporting period.
- When calculating CTE attendance days, logic excludes any date contained in a Non-Certified CTE record that overlaps with the reporting period.
- Grade levels do not need to match State Grade Levels in order to report.

Generating the Report

- 1. Select the Campus Summary Attendance option in the Report Type dropdown.
- 2. Select a Report Format of either PDF or DOCX.
- 3. Choose a school and calendar in the **Period Model** dropdown. The calendars list in the extract editor should populate once a period model has been selected.
- 4. Select which **Calendars** will report data within the report.
- 5. Fill in the **Start Date** and **End Date** fields. There are several options for this action:
 - Select the Calendar icon and select the start and end dates for the reporting period.
 - Select the Start Date and End Date fields and manually input the start and end dates for the reporting period.
 - Click on the period options below the Period model to quick set the start and end dates for the reporting period.
- 6. Select the Grade(s) included in the report or select an Ad Hoc Filter.
- 7. Decide if you want to generate the report or submit to batch:

Generate Report	Click the Generate Report button to immediately generate the report. The report will appear in a separate window in the designated format.
Submit to Batch	Clicking the Submit to Batch button to send the extract to the Batch Queue List. Batch Queue functionality provides the ability to schedule when the extract is generated and allows users to navigate away from the report editor while the extract is being built. The Batch Queue List also lets users view and access historical reports which were run through the Batch Queue tool.

TEA Campus Attendance Summary Report

Report Layout

Element	Description	Location
Reporting Period <i>Required</i>	The period of time that this report pulls from to generate an attendance summary. The general period of time for this report is six weeks. The full school year can be analyzed with this report, but it must be divided into approximately six equal reporting periods.	System Administration > Calendar > Calendar > Attendance Periods > Attendance Periods Detail Database: Calendar.name
Total <i>Required</i>	The sum total of A-R for all grades included in the report.	Not dynamically stored Database: Calculated field

Element	Description	Location
Grade Level <i>Required</i>	The student grade level used to filter this report. Note: Grade levels do not need to match State Grade Levels in order to report.	Student Information > General > Enrollment Tab > Grade System Admin > Calendar > Calendar > Grade Level Database: Enrollment.grade
Instructional Days (A) Required	The total number of days classes are held during the school year.	Not dynamically stored Database: Calculated field
Days Membership (B) Required	The total number of days that all students were enrolled in the school during the reporting period. Days Membership is calculated by adding together the number of Days Absent (C), number of Eligible Days Present (F), and number of Ineligible Days Present (E) for each grade within the reporting period and instructional track: Days Membership = Days Absent + Eligible Days Present + Ineligible Days Present	Not dynamically stored Database: Calculated field
Total Days Absent (C) Required	The total number of days students were absent during the reporting period.	Not dynamically stored Database: Calculated field
Total Days Present (D) Required	The total number of days students were present in the reporting period. Days Present is calculated as the number of Ineligible Days Present (E) plus the number of Eligible Days Present (F) for each grade within the reporting period and instructional track. Days Present = Ineligible Days Present + Eligible Days Present	Not dynamically stored Database: Calculated field
Total Ineligible Days (E) Required	The total number of days students were present and in membership, but ineligible for ADA funds.	Not dynamically stored Database: Calculated field

Element	Description	Location
Total Eligible Days (F) Required	The total number of days students were present, in membership, and eligible for ADA funds.	Not dynamically stored Database: Calculated field
Eligible Days Bilingual/ESL (G) Required	The total number of days students were taking part in eligible Bilingual or ESL programs.	Not dynamically stored Database: Calculated field
Eligible Days Pregnancy Related Services (H) <i>Required</i>	The total number of days students were taking part in Pregnancy Related Service programs.	Not dynamically stored Database: Calculated field
Eligible Days SpecEd Main (I) <i>Required</i>	The total number of days students were in Special Ed Setting 40: Mainstream during the reporting period.	Not dynamically stored Database: Calculated field
Bilingual/ESL Refined ADA (J) Required	 Bilingual/ESL Refined ADA is calculated by dividing the number of Eligible Bilingual/ESL Days Present (G) by the number of Instructional Days (A) for each grade within the reporting period and instructional track. (Rounded to the nearest 0.1): Bilingual/ESL Refined ADA = Eligible Bilingual/ESL Eligible Days Present / Instructional Days 	Not dynamically stored Database: Calculated field

Element	Description	Location
SpecEd Main Refined ADA (K) Required	 Special Education Mainstream Refined ADA is calculated by dividing the number of Eligible Special Education Mainstream Days Present (I) by the number of Instructional Days (A) for each grade within the reporting period and instructional track: Special Education Mainstream Refined ADA = Eligible Special Education Mainstream Days Present / Instructional Days To be included, on the day being counted the IEP must be active and locked, AND the there must be an active Instructional Setting code of 40 on the Settings and Disabilities editor in the IEP. 	Not dynamically stored Database: Calculated field
Pregnancy Related Service FTE (L) <i>Required</i>	Pregnancy-Related Services FTE is calculated as the number of Eligible Pregnancy-Related Services Days (H) multiplied by 0.2936; the result is divided by the number of Instructional days (A) for each grade within the reporting period and instructional track: Pregnancy-Related Services FTE = (Elig Preg Rel Serv Days * 0.2936) / Instructional Days	Not dynamically stored Database: Calculated field

Element	Description	Location
Special Education FTE (N) Required	Special Education FTE is calculated by adding all the Special Education Eligible Days Present (F) and multiplying this sum by the corresponding weight factor for each grade (see the table in the image below). Then the hours excess is subtracted to calculate the contact hours. All the Special Education contact hours are added together and this sum is divided by 6 multiplied by the number of Instructional Days (A) to yield the Special Education FTE for the track: Special Education FTE = Spec Ed Contact Hours (6 * Instructional Days) $\frac{\overline{\text{Special Ed Setting Code}}{\overline{\text{Special Ed Setting Code}}} = \frac{\overline{\text{Special Ed Setting Code}}{\overline{\text{Special Ed Setting Code}}} = \overline{\text{Specia$	Not dynamically stored Database: Calculated field
Regular Program Refined ADA (O) Required	Regular Program Defined ADA is calculated by the Total Refined ADA (P) minus the Career & Technology Education FTE (M) and Special Education FTE (N), rounded to the nearest 0.1: Regular Program Defined ADA = Total Refined ADA - Career & Technology Education FTE - Special Education FTE	Not dynamically stored Database: Calculated field

Element	Description	Location
Total Refined ADA (P) Required	Total Refined ADA is calculated by dividing the number of Eligible Days Present (F) by the number of Instructional Days (A) for each grade within the reporting period and track: Total Refined ADA = Eligible Days Present / Instructional Days	Not dynamically stored Database: Calculated field
Percent in Attendance (Q) <i>Required</i>	Percent in Attendance is calculated by dividing the Days Present (D) by the Days Membership (B). This sum is then multiplied by 100: Percent in Attendance = (Days Present / Days Membership) * 100	Not dynamically stored Database: Calculated field
Gifted and Talented (R) <i>Required</i>	The total number of students who have a Program of GT: Gifted & Talented.	Student Information > General > Flags > Student Flag Detail > Flags > GT: Gifted & Talented Database: Enrollment.giftedTalented

CTE Code	Weight Factor	Reporting Period #	CTE Days	Contact Hours	CTE FTE
V1	1	Reports the total number of V1 contact hours for the reporting period listed.	Reports the number of days during the reporting period where at least one student with a V1 code was in attendance (count one for every day, regardless of the number of students).	Reports the total number of V1 contact hours for all reporting periods listed.	Reports based on the following calculation: Contact Hours / (6*Instructional Days)

CTE Code	Weight Factor	Reporting Period #	CTE Days	Contact Hours	CTE FTE
V2	2	Reports the total number of V2 contact hours for the reporting period listed.	Reports the number of days during the reporting period where at least one student with a V2 code was in attendance (count one for every day, regardless of the number of students).	Reports the total number of V2 contact hours for all reporting periods listed.	Reports based on the following calculation: Contact Hours / (6*Instructional Days)
V3	3	Reports the total number of V3 contact hours for the reporting period listed.	Reports the number of days during the reporting period where at least one student with a V3 code was in attendance (count one for every day, regardless of the number of students).	Report the total number of V3 contact hours for all reporting periods listed.	Reports based on the following calculation: Contact Hours / (6*Instructional Days)
V4	4	Reports the total number of V4 contact hours for the reporting period listed.	Reports the number of days during the reporting period where at least one student with a V4 code was in attendance (count one for every day, regardless of the number of students).	Report the total number of V4 contact hours for all reporting periods listed.	Reports based on the following calculation: Contact Hours / (6*Instructional Days)
V5	5	Report the total number of V5 contact hours for the reporting period listed.	Reports the number of days during the reporting period where at least one student with a V5 code was in attendance (count one for every day, regardless of the number of students).	Report the total number of V5 contact hours for all reporting periods listed.	Reports based on the following calculation: Contact Hours / (6*Instructional Days)
V6	6	Reports the total number of V6 contact hours for the reporting period listed.	Reports the number of days during the reporting period where at least one student with a V6 code was in attendance (count one for every day, regardless of the number of students).	Report the total number of V6 contact hours for all reporting periods listed.	Reports based on the following calculation: Contact Hours / (6*Instructional Days)
Total		Reports the total number of all contact hours for the reporting period listed (V1 + V2 + V3 + V4 + V5 + V6)	Reports the total number of days during the reporting period where a student with a V code was in attendance (count one for every day, regardless of the number of students).	Report the total number of all contact hours for all reporting periods listed (V1 + V2 + V3 + V4 + V5 + V6).	Total FTE for all V codes.
