Tool Search: School Information

School Information lists all of the schools within the district. School data is divided into two areas - **School Detail** and **School History**. School History records contain information related to a school that can be tracked historically. By creating a new School History, the information is tracked as of a specific date, while preserving previous values.

## Note to District Users Operating within an Infinite Campus State Edition Installation:

Districts that are part of an Infinite Campus State Edition installation may not have the ability to add a new school. A district that does not have rights to add a new school should contact its State Department of Education.

- To add a new school to a State and appropriate District Editions, submit a ticket to Infinite Campus Support detailing your request. Infinite Campus Support staff will implement the changes in both applications as appropriate.
- To modify the name of a school in the State and appropriate District Editions, submit a ticket to Infinite Campus Support detailing your request. Infinite Campus Support staff will implement the changes in both applications as appropriate.

When first accessing the School information, a list of all schools in the district appears. To view information about a school, select the appropriate school name from the School Editor list. A School Detail editor displays.

Click the Plus sign next to the school name to see historical school information.

# New School Creation

When a new school is organized for a district, basic contact and location information needs to be added. Schools are listed in alphabetical order.

*School Detail Editor*

When creating a new school, information on the **School Detail Editor** and on the **School History** editor are entered at the same time.

1. Select **New School**. A **School Detail** editor displays.
2. Enter the **Name** of the school.
3. Enter the **State School Number**.
4. Enter the **Phone Number** of the school.
5. Enter the other non-required data elements as defined in the above table that are applicable to the new school.
6. Click the **Save** icon when finished. The new school is listed in the School editor.

Some of the fields on the School Detail editor are necessary for state reporting extracts. Consult the [State Specific Information](#) area for additional details on these fields.

## Additional School Detail Editor Fields

The following fields are site-specific or localized fields.

Field	Description	State
<b>File Sequence Number</b>	School level transactions for <a href="#">Arizona State reporting</a> have their own sequence number. The sequence number must be added to this field to build school level transactions. The transaction builds one number higher than the number in this field. For example, if the File Sequence number is set to 1001, the Transaction builds sequence 1002.	AZ
<b>CTDS</b>	The CTDS code is a school identifier used in <a href="#">Arizona State reporting</a> . When a value is set, it reports in all Arizona reports as the Entity ID. When this field is left blank, the Entity ID in the state reports uses the District number + School number.	AZ
<b>FRYSC Center</b>	Indicates the Kentucky district's FRYSC Center. Available FRYSC Centers are created and synced via the <a href="#">FRYSC Center (Kentucky)</a> tool.	KY
<b>Exclude</b>	When checked for a school, the school is excluded from reporting within Ed-Fi data and records or other state reporting.	AZ
<b>CDS Number</b>	The CDS number is a school identifier used in <a href="#">California State Reporting</a> . This is the County-District-School code and is used in state reports, instead of the State School Number.	CA

Field	Description	State
<b>NCES District Override</b>	This field is used to override the NCES School Number when reporting NCES data within reports. This field is needed for schools who have an NCES LEA ID which differs from their district's NCES LEA ID.  <div style="border: 1px solid #ccc; background-color: #fff9c4; padding: 5px; margin-top: 10px;">                     This field is read-only and controlled by the State. All values and modifications are pushed down from the state to your district.                 </div>	MT

Below the School Detail editor is a **School History** editor. These options are saved as the school's original record when the School Detail information is saved. If changes to these options need to be made after the school information and original record are first saved, a new School History record needs to be created in order to preserve the original data for reference. See the [Adding School History Information](#) section for instructions. If data in the Original Record or another existing school history record was not entered correctly, the record can be changed. A new record is not made in that case.

## School Deletion

Use the Delete School button to permanently delete the school from Campus. A school cannot be deleted when other records (calendars, enrollments, etc.) are tied to it. Original records cannot be deleted as they are required for schools to ensure there are values that date back as far as possible for reporting purposes. An original record can only be deleted when the entire school is deleted.

Tool rights to delete a school should be given to a limited number of users.

## Modification Alerts

Because the School Information record contains sensitive data related to a school's contact information, a notification is available that indicates which user modified the information. When a change is made, the username of the person and the date of the change displays below the Comments field on the School Detail editor and at the bottom of the School History Editor.
