If changes to these options need to be made after the school information and original record are first saved, a new School History record needs to be created in order to preserve the original data for reference. See the <u>Adding School</u> <u>History Information</u> section for instructions. If data in the Original Record or another existing school history record was not entered correctly, the record can be changed. A new record is not made in that case.

School Deletion

Use the Delete School button to permanently delete the school from Campus. A school cannot be deleted when other records (calendars, enrollments, etc.) are tied to it. Original records cannot be deleted as they are required for schools to ensure there are values that date back as far as possible for reporting purposes. An original record can only be deleted when the entire school is deleted.

Tool rights to delete a school should be given to a limited number of users.

Modification Alerts

Because the School Information record contains sensitive data related to a school's contact information, a notification is available that indicates which user modified the information. When a change is made, the username of the person and the date of the change displays below the Comments field on the School Detail editor and at the bottom of the School History Editor.
