Tool Search: Physical Fitness Test

The Physical Fitness Test Extract is used to generate the PFT data stored in the Teacher Scored Assessment for Grades 5, 7, and 9 concerning the physical fitness test results of students. This report is for districts who do NOT use the Fitnessgram.

Report Logic

Only assessments in 5th, 7th, and 9th grade are reported. Only available data from the students' assessments report.

The Physical Fitness test must start with "California PFT" as the name of the assessment in the [Assessment Center](#).

In order to report, students must be scored in [Campus Instruction](#) as a Teacher Scored Assessment. If students are not scored in Campus Instruction and their scores are manually entered in the Assessments tool for the student(s), a date on the [parent test](#) must be set.

Students do not report when:

- Their enrollment record is marked as State Exclude.
- They are enrolled in a Grade Level marked as State Exclude.
- They are enrolled in a calendar marked as State Exclude.
