Pass/Fail Indicator Code

The Pass/Fail Indicator Code is used to indicate the outcome for a course taken by a particular student.

Pass/Fail Indicator Code Default Settings

Students enrolled in courses that are marked as Pass/Fail are assigned a default Pass/Fail Indicator Code depending on the score received. While this field defaults to a preset value, teachers may edit the field if necessary. The Score Group aligned to the grading task indicates which grades are passing or failing. This is most often district-defined. Once a grade is posted, or entered, for a student, the Pass/Fail Indicator code is automatically populated with the appropriate default code. While this field defaults to a preset value, teachers may edit the field if necessary.

Default Codes

1. A Pass/Fail Indicator Code of **01: Course was passed and credit was received** is assigned if:
   - The Course is marked as Pass/Fail
   - The Score Group aligned to the grading task for the grade is marked as a passing score
2. A Pass/Fail Indicator **Code of 02: Course failed and no credit received/first occurrence** is assigned if:
   - The Course is marked as Pass/Fail
   - The Score Group aligned to the grading task for the grade is NOT marked as a passing score

Editing the Pass/Fail Indicator Code

If a Pass/Fail Code other than the default value is needed, teachers may manually edit the code value.
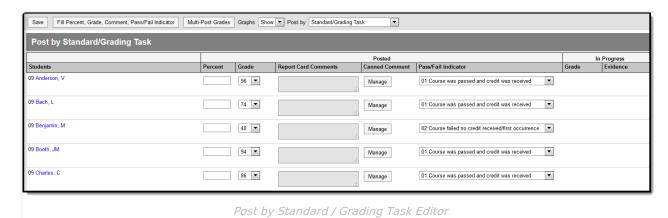

1. To edit the **Pass/Fail Indicator Code** value, select the appropriate Pass/Fail Code, and use the drop-list to select the desired code value.
2. Once finished, be sure to **Save** the changes.

Pass/Fail Indicator Code

Students enrolled in courses that are marked as Pass/Fail are assigned a default Pass/Fail Indicator Code depending on the score received. While this field defaults to a preset value, teachers may edit the field if necessary. The Score Group aligned to the grading task indicates which grades are passing or failing. This is most often district-defined. Once a grade is posted, or entered, for a student, the Pass/Fail Indicator code is automatically populated with the appropriate default code.

While this field defaults to a preset value, teachers may edit the field if necessary.

Default Codes

1. A Pass/Fail Indicator Code of **01: Course was passed and credit was received** is assigned if:
   - The Course is marked as Pass/Fail
   - The Score Group aligned to the grading task for the grade is marked as a passing score
2. A Pass/Fail Indicator **Code of 02: Course failed and no credit received/first occurrence** is assigned if:
   - The Course is marked as Pass/Fail
   - The Score Group aligned to the grading task for the grade is NOT marked as a passing score

Editing the Pass/Fail Indicator Code

If a Pass/Fail Code other than the default value is needed, teachers may manually edit the code value.

1. To edit the **Pass/Fail Indicator Code** value, select the appropriate Pass/Fail Code, and use the drop-list to select the desired code value.
2. Once finished, be sure to **Save** the changes.

Fill Pass/Fail Indicator

The Fill Percent, Grade, Comment, Pass/Fail Indicator option allows teachers to apply the same field value to multiple students at once. The Pass/Fail Indicator is specific to Texas and is described below.

1. To apply the same Pass/Fail Indicator Code value to multiple students, click **Fill Percent, Grade, Comment, Pass/Fail Indicator**. The *Fill: Percent, Grade, Comment, Pass/Fail Indicator* screen displays.

2. Check the Pass/Fail Indicator checkbox and use the drop-list to select the desired value. Once the desired value is selected, press **Fill**. The selected value is applied to all students in the section. For Pass/Fail Indicator Codes and definitions, see the table above.
