Student Day Minutes on Calendar Information

For each Attendance Code:

- The **Periods** column lists a count for Excused and Unexcused Absences of each period in the during the date range with that attendance code.
- The **Minutes** column lists a sum of the absent minutes in those periods that were assigned that code for Excused and Unexcused Absences.
- The **Days** column is the sum of the total Minutes students were considered absent for that period with that attendance code for Excused and Unexcused absences divided by the total Calendar Student Day Minutes.

Not all attendance codes allow for excused or unexcused. In the instance of an attendance code that tracks Excused absences only, the Unexcused column reports a value of zero (0). For attendance codes that do not affect the student's attendance for the day - exempt codes, for example - a value of zero (0) reports for both the Excused and Unexcused columns.
