

# Record 5 - Ethnic Count (Kentucky)

Last Modified on 03/11/2024 8:44 am CDT

[Report Logic](#) | [Generating the Extract](#) | [Report Layout](#)

**PATH:** *KY State Reporting > SAAR Reports > R5 Ethnic Count*

The R5-Ethnic Count Report returns a count of each student's race/ethnicity in the selected school(s) as of the last instructional day in the reporting year or last instructional day in the date range if not run for the entire school year.

Superintendent's Annual Attendance Report (SAAR)

**Superintendent's Annual Attendance Report (SAAR) Enrollment Report**  
 The SAAR provides a summary of each district's attendance data for the entire school year. The Summary report types provide aggregate data suitable for state submission. The Detail report types provide student-level data for verification, analysis and reference.

# Report Logic

Only students who are actively enrolled on the final instructional day of the date range specified in the Extract Editor are reported. This report includes over age and under age students. Students meeting any of the following criteria are not reported:

- Students marked "Perkins Only."
- Students marked "State Exclude" on enrollment, calendar or grade.
- Students in grade levels 95, 96, 97, 98 and 99. These grades will not be used in calculations or displayed as line items.
- Students who withdrew before the last day of the date range specified in the extract editor OR the last day of the 10th month if no date range is specified. These students appear in Withdrawal (R3) for the same reporting period.

The reported values are determined by calculating the number of students by race and gender who are enrolled on the last day of the date range specified in the extract editor OR the last day of the 10th month if no date range is specified.

The SAAR Enrollment (R2), Withdrawal (R3) and Ethic (R5) records should abide by the following equation:  $R2 - R3 = R5$ . If all data is properly inputted for all students, this equation will hold true.

The following circumstances can cause the  $R2 - R3 = R5$  equation not to balance:

- Dual Enrolled students who are enrolled in more than one calendar are counted on this record once for each calendar.
- Students with no gender in the Census screen (this can happen if students are loaded via sql process rather than manually or via a wizard).
- Students with no ethnicity (this can happen if students are loaded via sql process rather than manually or via a wizard).

## Generating the Extract

1. Select the desired **Report Type**. Report Selection options vary depending on the Report Type selected.
2. Select the **Extract Format** from the dropdown list.
3. Enter a **Date Range** to review data for one or more school months or select which school months should be included in the report. Leaving the Date Range blank reports the entire year.
4. Mark the **R5 Ethnic Count** checkbox.
5. Select the appropriate **Calendars** to include in the report.
6. Select the appropriate **Grade** (or select an **Ad Hoc Filter**)
7. Specify **5 Low Attendance Days** by selecting the **Load 5 Low Att. Days** button (optional).
8. Select **Validation Report** to see if the report has been set up correctly.
9. Select the **Generate Report Button**. The report will appear in a separate window in the specified Extract Format.
