Tool Search: KIAS Extract

The KIAS Extract outputs information required on individual discipline incidents to generate the IDEA and Non-IDEA student discipline data specifically in regards to Bullying, Weapons and Drugs. All Data must be reported from July 1 to June 30. Only information required for the Kansas Integrated Accountability System (KIAS) is exported.

Report Logic

One row per student per event with a resolution. The student must have an active enrollment in the selected school on the date of the incident in order to report.

- When an event has multiple resolutions that are the same, the duration of the total number of resolutions is summed and reports in one row.
- When an event has multiple resolutions that are different, the information reports in a separate row.

Data does not report when:

- the student's enrollment record is marked as State Exclude or No Show.
- the grade level of enrollment is marked as State Exclude.
- the calendar of enrollment is marked as State Exclude.

The following state resolution codes are categorized as follows:

- Out-of-School Suspension - 510 and 520
- In-School Suspension - 450
- Expulsion - 550, 555, 560, 565
- Days of Removal by School Personnel - 001, 002
- Special Education Expedited Due Process Hearing Officers Determination - 470

An incident needs to be marked as Complete in order to report. This is done on the Incident Detail Information editor in Behavior Management.

Validate KIAS Data

Use the Data Validation Report to correct any student data prior to the submitting the KIAS file to the state. Validation Groups and Validation Rules are provided by Infinite Campus for KIAS. These groups are used to return a list of students who meet the assigned rules for each group.

Administrators may need to add User Groups to the Validation Groups in order for users to generate the Data Validation Report. See the Validation Groups article for more information.

Data Validation Report - KIAS Invalid Discipline Method

If the Validation Report does not allow the selection of a Group, use the **Preview** option on the Data Validation Groups tool. That Preview report displays the same information as the Data Validation Report.

Validation Group Report Preview

Modifications to the Validation Rules and Validation Groups can be made if your district has purchased the Campus Analytics Suite; otherwise, they are read-only.

Users select the **Students with Invalid Discipline Method** Data Validation Group, which returns a list of students who meet the rule criteria but is missing a piece of information that is needed in the KIAS Extract.

- Special Education Students with an Invalid Discipline Method on Behavior Resolution, reported as Discipline Method for IDEA Student (field 16) in the KIAS Extract
- Non-Special Education Students with an Invalid Discipline Method on Behavior Resolution, reported as Discipline Method for Non-IDEA Student (field 17) in the Extract

The report firsts list a Summary of the issues found and the total number of occurrences.

Data Validation Report Summary

Then, click the Rule in the Summary column or scroll through the report to see which students meet the criteria of the rule logic.

Data Validation Report Results

Special Education Students with Invalid Discipline Method on Behavior Resolution

This validation rule returns students who are receiving Special Education sevices who have a Behavior Event where a Weapon is involved, but the assigned **Firearm Discipline Method** on the Behavior Resolution is NOT one of the following:

- 1 - Expulsion that was modified to less than one-year and received educational services under IDEA
- 2 - One year expulsion and received educational services under IDEA
- 3 - No expulsion because the student was removed for other reasons such as death, withdrawal, or incarceration
- 4 - Another type of disciplinary action
- 5 - No type of disciplinary action was taken

To correct the data, locate the Behavior Resolution that returned on the report in Behavior Management. Review the assigned Firearm Discipline Method for accuracy and modify as needed to be one of the values listed above.

Approved Behavior Resolutions for Students Receiving Special Education Services

Once modified and the issues returned in the Validation Report have been addressed, generate the

KIAS Extract and continue with the submission process.

Non-Special Education Students with Invalid Discipline Method on Behavior Resolution

This validation rule returns students who are NOT receiving Special Education services who have a Behavior Event where a Weapon is involved, but the assigned **Firearm Discipline Method** on the Behavior Resolution is NOT one of the following:

- 6 - One year expulsion and no educational services (including alternative placement with educational services).
- 7 - One year expulsion and educational services (or alternative placement with educational services).
- 8 - Expulsion modified to less than one year and no educational services (including alternative placement with educational services).
- 9 - Expulsion modified to less than one year and educational services (or alternative placement with educational services)
- 10 - No expulsion because the student was removed for other reasons such as death, withdrawal, or incarceration.
- 11 - Another type of disciplinary action.
- 12 - No disciplinary action was taken.

To correct the data, locate the Behavior Resolution that returned on the report in Behavior Management. Review the assigned Firearm Discipline Method for accuracy and modify as needed to be one of the values listed above.

Data Element	Description
Start Date, End Date	The dates by which student's enrollment must be active in order to be included on the report. Use the *Calendar* icon to select a new date or enter the date in the field in *mmddyy* format.
Format	Determines the display of the report. This extract can be generated in CSV (State Format) or HTML. Use the HTML format for testing and data review prior to submitting the data to the state. Use the State Format for submitting the data to the state.

Data Element	Description
Ad hoc Filter	Select which students to include in the extract by choosing a filter that was created in the Filter Designer.
Select Grades	Indicates which students are included in the extract. Only those students enrolled in the selected grade levels are included.
Calendar Selection	Select the calendar of enrollment from which to pull student data. Calendars can be chosen by the active year, by the school name or by the year.
Report Generation	Choose the Generate Extract button to display the results of the chosen items immediately. Choose the Submit to Batch option to generate the report at a specified time. This option is helpful when generating large amounts of data.

Generate the Extract

1. Enter a **Start Date** and **End Date** for the report.
2. Select the **Format** of the report.
3. Use the **Ad hoc Filter** to select students already included in a filter. This is not required. When not chosen, all students who have the appropriate enrollment start or end status during the entered date range are included.
4. Select the desired **Grades** to include in the extract.
5. Select the **Calendars** to include in the file.
6. Click the **Generate Extract** button. Or generate the extract at a specified time using the **Submit to Batch** button. The file appears in a new window in the selected format.

Report Layout

Data Element	Description	Location
Building ID	Reports the four digit State School number. *Numeric, 4 digits*	School Information > State School Number School.number
KIDS ID	Reports the student's State ID number. *Numeric, 10 digits*	Demographics > Person Identifiers > State ID Person.stateID
Incident Date	Date on which the behavior incident occurred. *Date field, 10 characters (MM/DD/YYYY)*	Behavior Management > Incident > Date of Incident behaviorIncident.timestamp
Bullying Type	Indicates the type of bullying incident that occurred, if assigned. • 2015: Physical Bullying - reports a value of 1 • 2016: Cyber Bullying - reports a value of 2 • 2017: Verbal Bullying - reports a value of 3 • 2018: Relational Bullying - reports a value of 4 When the Incident Type is not populated on the behavior record, this field reports blank. *Numeric, 1 digit*	Behavior Management > Incident > Event > Event Type > Incident Type Behavior.incidentType

Data Element	Description	Location
Bullying Days of ISS	Reports the total days the student was assigned a resolution of **450: In School Suspension** from the Start Date of the Resolution to the End Date of the Resolution. **The Incident must have an Incident Type of 2015, 2016, 2017, or 2018.** When the Duration field on the Behavior Resolution has a value, that value reports to the nearest hundredth (normal rounding rules apply). When the Duration field is not populated, the days of ISS is calculated using the start and end dates and start and end time of the resolution. Both the Resolution Start and End Dates are required. If Resolution Start or End Time is not populated, partial day does not calculate. When there are multiple ISS resolutions for one student for one incident, the duration of time is summed. When there is no ISS resolution, a NULL value reports. *Numeric, 4 digits (XX.XX)*	Behavior Managements > Incident > Event Resolution > Duration in School Days, Resolution Start Date, Resolution End Date BehaviorResType.calculateDuration BehaviorResolution.startdate BehaviorResolution.enddate

Data Element	Description	Location
Bullying Days of OSS	Reports the total days the student was assigned of resolution of **510: Removal or Out-of-School Suspension - with Services** or **520: Removal or Out-of-School Suspension without Services.** **The Incident must have an Incident Type of 2015, 2016, 2017, or 2018.** When the Duration field on the Behavior Resolution has a value, that value reports that value reports to the nearest hundredth (normal rounding rules apply). When the Duration field is not populated, the days of OSS is calculated using the start and end dates of the resolution. Both the Resolution Start and End Dates are required. If Resolution Start or End Time is not populated, partial day does not calculate. When there are multiple OSS resolutions for one student for one incident, the duration of time is summed. When there is no OSS resolution, a NULL value reports. *Numeric, 4 digits* (XX.XX)	Behavior Managements > Incident > Event Resolution > Resolution Type BehaviorResType.calculateDuration BehaviorResolution.startdate BehaviorResolution.enddate

Data Element	Description	Location
Bullying Days of Expulsion	Reports the total days the student was expelled due to bullying and is assigned a resolution of the following: • **550: Expulsion with Services - Partial School Year** • **555: Expulsion with Services - Remainder of School Year** • **560: Expulsion without Services - Partial School Year** • **565: Expulsion without Services - Remainder of School Year** **The Incident must have an Incident Type of 2015, 2016, 2017, or 2018.** When the Duration field on the Behavior Resolution has a value, that value reports to the nearest hundredth (normal rounding rules apply). When the Duration field is not populated, the days of Expulsion is calculated using the start and end dates of the resolution. Both the Resolution Start and End Dates are required. If Resolution Start or End Time is not populated, partial day does not calculate. When there are multiple Expulsion resolutions for one student for one incident, the duration of time is summed. When there is no Expulsion resolution, a NULL value reports. *Numeric, 4 digits (XX.XX)*	Behavior Managements > Incident > Event Resolution > Duration in School Days, Resolution Start Date, Resolution End Date BehaviorResType.calculateDuration BehaviorResolution.startdate BehaviorResolution.enddate

Data Element	Description	Location
Educational Services during Expulsion	Indicates the student received services while expelled. The Behavior Resolution assigned on the behavior incident must be either: • **550: Expulsion with Services - Partial School Year** • **555: Expulsion with Services - Remainder of School Year** **The Incident must have an Incident Type of 2015, 2016, 2017, or 2018.** Reports a value of Y when the student did receive services while expelled. Reports a value of N when the student did not receive services while expelled for bullying (Behavior Resolution Codes 560, 565). *Alphanumeric, 1 character (Y or N)*	Behavior Managements > Incident > Event Resolution > Resolution Type Behavior.stateResCode
Bullying Days of Other	Reports the total amount of days the student was assigned a resolution other than ISS, OSS or Expulsion when the Incident Types is related to bullying from the start date of the resolution to the end date of the resolution. **The Incident must have an Incident Type of 2015, 2016, 2017, or 2018.** When the Duration in School Days field on the Behavior Resolution has a value, that value reports to the nearest hundredth (normal rounding rules apply). The Duration field captures duration based on units selected. When Duration is 3 and Duration Unit is hours, the calculation is 3/24 = 0.125, rounded to 0.13. Mapped State Resolution Code cannot be the following:	Behavior Managements > Incident > Event Resolution > Resolution Type BehaviorResType.calculateDuration BehaviorResolution.startdate BehaviorResolution.enddate

Data Element	Description	Location
	450: In School Suspension • **450: In School Suspension** • **510: Removal or Out-of-School Suspension - with Services** • **520: Removal or Out-of-School Suspension without Services**. • **550: Expulsion with Services - Partial School Year** • **555: Expulsion with Services - Remainder of School Year** • **560: Expulsion without Services - Partial School Year** • **565: Expulsion without Services - Remainder of School Year** When the Duration in School Days field or the Detention Duration field is not populated, the total is calculated using the Resolution Start Time, Resolution End Time, Resolution Start Date and Resolution End Date. • If Resolution Start Date is the same as the Resolution End Date, and the End Time is 3 hours after the start time, 3 hours reports in relation to one school day (3/24). When Start Time and End Time are not populated: • The Start and End Date of the Resolution are used. If either of those is not populated, this field reports blank. • If the Start Date is the same as the End Date, reports a value of 1.00. • If the Start Date is Friday and the End Date is the next school day (Monday), reports a value of 2.00. *Numeric, 4 digits* (XX.XX)
