Path: Reporting > ME State Reporting > Economic Status Report

The Economic Status Report extracts economic status data for upload into ME DOE's state system.

Maine Economic Status Report Extract Editor

Report Logic

Logic determines the report population as follows:

- Report a record for each Eligibility record active within the calendar(s) selected on the extract editor.
  - A student must have at least one Eligibility record active in a Calendar selected in the extract editor.
    - Enrollment records must have a Service Type = P: Primary
    - The Enrollment record must have a date range which overlaps at least one day of the Eligibility record.
    - If a single Eligibility record overlaps multiple enrollment records which meet reporting criteria, a separate record is reported for each enrollment.
  - The Eligibility Start Date must be less than or equal to the Effective Date entered on the extract editor.
  - The Eligibility Start Date must be less than or equal to the Calendar End Date selected in the extract editor.
  - The Eligibility End Date must be greater than or equal to the Calendar Start Date selected in the extract editor.
- The report will exclude any records tied to the following:
  - Enrollment records where No Show = True
  - Grade Levels marked as Exclude from state reporting

- Records tied Calendars marked as Exclude
- Enrollment records where the Start Date is greater than the Effective Date entered on the extract editor.

Generating the Extract

1. Enter the **Effective Date**. Data as of this date will report.
2. Select which **State Grade Levels** will report data.
3. Select which **Calendars** will report data.
4. Select the report **Format**. For submission to the state, select the CSV (State Format).
5. To further narrow results, select an **Ad Hoc Filter** (optional).
6. Decide how to generate the report:

Generate Report	Click the Generate Report button to immediately generate the report. The report will appear in a separate window in the designated format.
Submit to Batch	Clicking the Submit to Batch button to send the extract to the Batch Queue List. Batch Queue functionality provides the ability to schedule when the extract is generated and allows users to navigate away from the SEconomic Status Report editor while the extract is being built. The Batch Queue List also lets users view and access historical Economic Status Reports which were run through the Batch Queue tool.

Understanding the Economic Status Report

Use the table below to better understand what each report column means and how it reports data.

Column	Description	Format and Length	Database Location	Campus GUI Location
SAUID	Logic reports the District Number associated with the student's enrollment record.	Numeric, 4 digits	District.number	System Administration > Resources > District Info > State District Number
StateStudentID	Logic reports the Student State ID of the student.	Numeric, 9 digits	Person.stateID	Census > Demographics > Student State ID

Column	Description	Format and Length	Database Location	Campus GUI Location
School ID	Logic reports the School Number associated with the student's enrollment record.	Numeric, 4 digits	School.number	System Administration > Resources > School > School Number
