

# Push to Sections

The Push to Sections option pushes grading setup from a course to its sections.

Districts should use caution pushing changes to sections once classes are in session as changes may affect grade calculations.

3) Oates, Salvatore

4) Teacherson, Katie

Note: Pushing modifications to Grade Calc Options, Composite Grades, Composite Weights, or Categories may impact grades.

This process may take several minutes.

☐ I understand and wish to continue\*

Push Cancel

Use the Push to Section option to push grading setup data to a course's sections.

Access to this option is governed by a specific **Push to Section** tool right. Rights are granted by [user](#) or [user groups](#) and are found in Scheduling > Courses > Course > Push to Section.

## Pushing Grading Setup Data

1. Click **Push to Sections**.
2. In the pop-up that opens, **Categories**, **Grade Calc Options**, **Composite Grades** and **Weights**, and **Advisory** are selected by default. Unselect any course data you don't want to push. Also, mark **Overwrite Categories** if any categories at the section level should be overwritten with course-level data.
3. Sections to be updated are listed in the pop-up with their teachers.
4. Mark the *I understand and wish to continue*. checkbox to indicate that the changes have been reviewed.

5. Click **Push** to update sections with grading data from the course.

## Additional Information

- If a category pushed from a course and a category created by the teacher in the section have the same name, the teacher's category is appended with (1) to distinguish it from the category from the course.
- Categories pushed to sections are locked from editing by teachers.
- Be aware that changes to calculations in Grade Calc Options and Composite grading may result in changes to students' grades once classes are in session.
