

STN Report (Indiana)

Last Modified on 12/14/2025 8:45 pm CST

This report is no longer supported or updated by Infinite Campus. The Indiana flat file reports will remain available in the Infinite Campus system so schools can continue to use them as needed.

[Data Exchange](#) was designated as the sole source of truth for all data for the purposes of required reports beginning with the 2021-2022 school year. Please refer to the [Indiana Ed-Fi](#) documentation for additional information about current state reporting practices/procedures using the Data Exchange [Ed-Fi](#) System.

The Student Test Number Report is used to align school data for students with state data. For example, if a student moves into a district who already has an STN (as shown on the DOE website), when the district sends the STN report it will update any information that has changed for the student and transfer the student to the correct school. If a student does not already have an STN, the new school will assign them one using a formula of school of enrollment, the current school year, and a consecutive number.

Data Submission

This report should be submitted on or close to the 15th of each month. STN Lookup Data Layout Student information can only be updated or changed on a student within the first three months the student has been reported to the Application Center.

Report Logic

Only primary enrollments report in this extract. Each time that the user changes information in Demographics, a new identity is created, so users will need to run the STN Report for ALL students and for students whose Demographics information has changed.

Report Editor Details

The following table lists the fields available on the STN Report Editor.

Editor Field	Description
Start Date	The earliest date from which data will be pulled for the report.
End Date	The latest date from which data will be pulled for the report.
Report Legal Names/Gender	When this checkbox is marked, the following fields will first report from an identity with the Legal Name and/or Gender filled out in the protected identity information area: Student Last Name, Student First Name, Student Middle Name/Middle Initial, Student Name Suffix, and Gender.
Pull students who have changed	Indicates that only students whose records have been changed will appear on the report. When the checkbox is marked, only students with an identity record with an effective date within the specified date range report. Otherwise, all eligible students report.
Choose Grades	Select the student grade levels to report in the extract.
Ad Hoc Filter	Selecting a filter limits the results to only those included in the filter.
Format	The format in which the report will generate. Options include HTML, Comma Separated and XML.
Calendars	The calendar(s) from which data is pulled for the report. Can be set to display only the active year's calendars, or be sorted by school or by year.
Generate Extract/ Submit to Batch	Users have the option of submitting a report request to the batch queue by clicking Submit to Batch instead of immediately generating the report by clicking Generate Extract . The batch process allows larger reports to generate in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.
