Tool Search: MARSS Extracts

The Minnesota Automated Reporting Student System (MARSS) collects student data required by many Minnesota Department of Education areas. MARSS B, the Student File, gathers a broad range of student data, particularly details found in student enrollments.

## MARSS Extracts ☆

### MN MARSS State Extracts

This tool will extract data to complete the MN State-defined reporting extracts. Choose the State Format to get the file in the state defined file format, otherwise choose one of the several testing/debugging formats.

## Report Logic

The MARSS B Extract reports a record for each enrollment in the selected Calendar(s) within the entered Date Range. If the user selects calendar(s) from the year before the selected School Year, the report will include the prior year calendar(s) that fall within the Date Range entered.

The results do not include students enrolled in a Grade marked as 'Exclude from State Reporting'.

If a student has a State Aid Category of 46 (STATE AID CATEGORY), the following fields report as indicated:

## File Naming Logic

If generating the MARSS B extract in State Format, the output file is named as follows:

"B" + 'district' + "." + 'extractPeriod' + 'yearNum'

## Format Options

The following formats are available for generating this extract: State Format should be used for data submission to the state, and CSV, XML, and HTML formats can be used to test and review data.

MARSS B Extract - HTML

## MARSS B Extract Layout

If **Report Legal Name When Provided** is marked, Demographics fields report from Protected Identity Information.

If the **Include Excluded Grade Levels** checkbox is marked, students enrolled in Grade Levels marked as State Exclude will be included in the extract.

**Note:** In order for the override data to report as expected, both the Membership override AND Attendance override fields on the Enrollment need to contain data, not just the membership override field.

The name of the element before the release of Campus.2008 is shown below the bolded name.

## EL Field Logic

Reports as **Y** in the following instances:

- If the student is enrolled in an EL program.
- If the student's most recent EL record has a Program Status of Exited EL and a Program Exit Date on or after the Start Date of the earliest enrollment.
- If the student's most recent EL record has a Program Status of EL and an Identified Date entered.
- If any EL record has a Program Status of EL and an Identified Date on or after the earliest enrollment Start Date and on or before the End Date of the extract.

If a student has enrollment in multiple calendars, this field will report as Y for all MARSS records for that student if it reports as Y for one enrollment.

Reports as **N** in the following instances:

- If Program Exit Date occurs before the Start Date of the earliest enrollment.
- All other circumstances not described above.
