Tool Search: MARSS Extracts

The Minnesota Automated Reporting Student System (MARSS) collects student data required by many Minnesota Department of Education areas. MARSS B, the Student File, gathers a broad range of student data, particularly details found in student enrollments.

The screenshot shows the 'MARSS Extracts' tool interface. At the top, there's a breadcrumb trail: 'Reporting > MN State Reporting > MARSS Extracts'. Below this is a header 'MN MARSS State Extracts'. A message box states: 'This tool will extract data to complete the MN State-defined reporting extracts. Choose the State Format to get the file in the state defined file format, otherwise choose one of the several testing/debugging formats.' The main area is divided into two columns. The left column, 'Extract Options', contains fields for 'Extract Type' (MARSS B), 'Extract Period' (Fall), 'School Year' (2025-26), 'Date Range' (07/01/2025 to 06/30/2026), 'Report Student Number' (checkbox), 'Format' (State Format(Fixed width)), 'Student Ad Hoc Filter' (dropdown), 'Report Legal Name when Provided' (checkbox), 'Include Excluded Grade Levels' (checkbox), and 'Exclude Cross-Site Data' (checked). The right column, 'Select Calendars', asks 'Which calendar(s) would you like to include in the report?' with options: 'active year' (selected), 'list by school', and 'list by year'. A dropdown menu for '2025-26' is open, showing a list of schools: '2025-26 Robbinsdale Armstrong', '2025-26 Robbinsdale Cooper Hg', '2025-26 Zachary Lane Elementar', '25-26 [object Object]', and 'EC 2025-26 FAIR School Pilgrim'. At the bottom are buttons for 'Generate Extract' and 'Submit to Batch'.

Report Logic

The MARSS B Extract reports a record for each enrollment in the selected Calendar(s) within the entered Date Range. If the user selects calendar(s) from the year before the selected School Year, the report will include the prior year calendar(s) that fall within the Date Range entered.

The results do not include students enrolled in a Grade marked as 'Exclude from State Reporting'.

If the Exclude Cross-Site Data checkbox is marked, cross-site enrollment data is **not** included in the report.

If a student has a State Aid Category of 46 (STATE AID CATEGORY), the following fields report as indicated:

File Naming Logic

If generating the MARSS B extract in State Format, the output file is named as follows:

"B" + 'district' + "." + 'extractPeriod' + 'yearNum'

Format Options

The following formats are available for generating this extract: State Format should be used for data submission to the state, and CSV, XML, and HTML formats can be used to test and review data.

MARSS B Extract - HTML

MARSS B Extract Layout

If **Report Legal Name When Provided** is marked, Demographics fields report from Protected Identity Information.

If the **Include Excluded Grade Levels** checkbox is marked, students enrolled in Grade Levels marked as State Exclude will be included in the extract.

Note: In order for the override data to report as expected, both the Membership override AND Attendance override fields on the Enrollment need to contain data, not just the membership override field.

The name of the element before the release of Campus.2008 is shown below the bolded name.
