

# Race/Ethnicity (Minnesota)

Last Modified on 12/14/2025 8:45 pm CST

This article provides guidance for entering Race/Ethnicity values for [Demographics](#) and [Identities](#) records. This article is specific to Minnesota.

Minnesota uses the Ethnic and Racial Demographic Designation Form to record Race and Ethnicity data.

The Ancestry and Ethnic Origin (AEO) data collection is also done through the Race checkboxes, More Detailed Hispanic/Latino Codes, More Detailed Race/Ethnicity Codes, and Race Ethnicity fields.

Information from these fields is reported in the [Student Education Organization Associations resource](#).

See the core [Race/Ethnicity](#) article for information on necessary tool rights, available Ad hoc fields, and guidance on adding records.

*For Minnesota, Race/Ethnicity options include both federal designations and state-specific subcategories.*

The following table provides a reference to the Designation Form and indicates where that data should be recorded in Campus.

Before processing the student's Designation Form, make sure the appropriate federal race/ethnicity(s) is selected in the *Is the individual from one or more of these races?* section.

More Detailed Race/Ethnicity Code(s) field has a validation on it: Users can only see and select specific subcodes related to the main race code (determined by the race checkboxes).
