*For Minnesota, Race/Ethnicity options include both federal designations and state-specific subcategories.*

Minnesota uses the Ethnic and Racial Demographic Designation Form to record Race and Ethnicity data.

The following table provides a reference to the Designation Form and indicates where that data should be recorded in Campus. The third column indicates how the Ed-Fi 3.1 Student Education Organization Association resource reports based on the data entered in Campus.

Before processing the student's Designation Form, make sure the appropriate federal race/ethnicity(s) is selected in the *Is the individual from one or more of these races?* section.
