Tool Search: EIS Batch Transmission

The 047 Student Standard Day extract reports the number of minutes considered to be a standard day for the student to EIS.

See the EIS Batch Transmission article for an overview of the EIS Batch Transmission File, logic that applies to all extracts, and generation instructions.

Report Logic

A record reports for all active Primary enrollments in the selected calendar(s). Records are not reported in advance for enrollments that become active in the future.

Enrollments in Calendars or Grade Levels marked as Exclude or for students who do not have a Student State ID are not reported. Additionally, records are not reported for the following students. These students are included in the warning report.

- Students without PINs.
- Students with multiple active Primary enrollments.
- Students with multiple enrollments in the same school.
- Students with an enrollment marked as N: Special Ed Services
- Enrollments marked as No Show or Exclude, or in Calendars or Grade Levels marked as Exclude.

If a record was previously reported and then marked as exclude, a delete record will be sent to EIS for each record.

The **Record Key**, which helps determine the Type of record sent (New, Edit, or Delete), is comprised of the Record ID, Record Version, District ID, School ID, School Year, Instructional Program Number, State Assigned Student ID, and Student Std Day Effective Date.
