See the <u>Behavior Reports Tool Rights</u> for information on available tool rights for this report.

Behavior Incidents are created and modified in the <u>Referral</u> or the <u>Management Tool</u>.

Editor Fields

BIE users have the ability to generate a BIE version of the report OR a Core version of the report. The BIE version reports BIE Location Codes instead of standard behavior location codes.

The following table describes the options available for generating the Event Report and how those options affect the generated report.

Field	Description
Student and Da	te Fields
Grade	Limits report results to only students actively enrolled in the selected grade(s).
Ad hoc Filter	Limits report results based on the parameters of an existing Ad hoc Filter.
Date Range	Limits report results to only incidents which occurred during the date range entered.
Calendar(s)	Limits report results to only incidents which occurred during the selected calendar(s).
Incident Details	
Incident Type	Filters the report to only incidents with the selected Type. Incident types are assigned in the <u>Event Types</u> tool and can be aligned as either Award or Discipline.
Report Type	 Determines how the report displays results. Options are: Summary: Lists total incidents, events and participants by Context and Location. Cross Section By Location: Lists total incidents, events and participants in each location and context pairing. Cross Section By Context: Lists total incidents, events and participants in each context and location pairing.
Incident Location	Limits report results to incidents that occurred in the selected Location(s).
Incident Context	Limits report results to incidents that occurred in the selected Context(s).
Sort Options an	d Format Options
Event Count (ascending)	Sorts results by Event count, beginning with incidents with the most events.

Field	Description			
Event Count (descending)	Sorts results by Event count, beginning with incidents with the least events.			
Participant Count (ascending)	Sorts results by Participant count, beginning with incidents with the most participants.			
Participant Count (descending)	Sorts results by Participant count, beginning with incidents with the least participants.			
Report Format	Indicates how the report generates - PDF, CSV or DOCX.			

Generate the Behavior Incident Report

- Select which students should be included in the report by choosing a Grade level or Ad hoc Filter.
- 2. Select the Calendar(s) that should be included in the report.
- 3. Enter a **Date Range** in *mmddyyyy* format or by clicking the calendar icons and selecting dates. Leaving the Date Range blank reports Behavior Incidents for the enter year.
- 4. Select the desired **Incident Type**.
- 5. Select the desired **Report Type**.
- 6. Select which Incident Locations to include in the report.
- 7. Select which Incident Contexts to include in the report.
- 8. Indicate how the report should be **sorted**.
- 9. Select the desired Report Format.
- 10. Click the Generate Report button. The report displays in the selected format.
