Tool Search: Enrollments

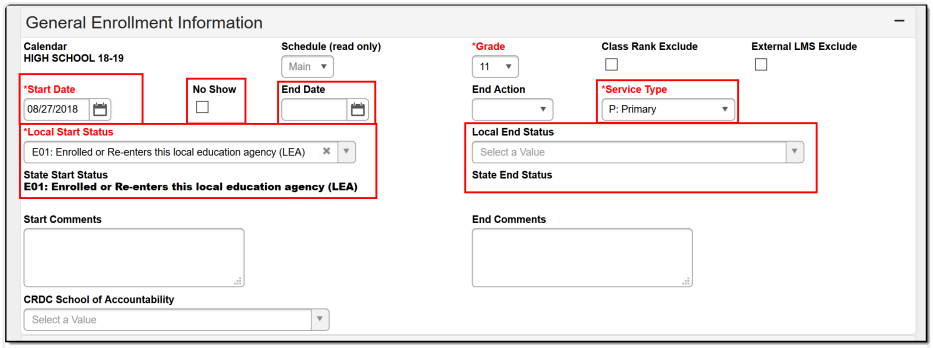

The Enrollment tool displays all occurrences of a student's enrollment in the district. Since this is a historical view, this list could be quite long.

By default, enrollments are first sorted by grade level and sorted by enrollment start date second. To reorder the list of enrollments, click the blue headers in the Enrollments Editor list. The list of enrollments can be sorted by Grade, Calendar, Start Date or End Date.

> See the core Enrollments article for information on necessary tool rights, available Ad hoc fields, and guidance on adding and printing Enrollment records.

General Enrollment Information

The General Enrollment Information editor describes the calendar, schedule, grade, start/end date, and reason for the creation or ending of the enrollment record. Both the *Start* and *End Status* fields are unique to the state of California. California reporting also relies heavily on *Service Type* when populating reports. These fields are further described below. All other fields in General Enrollment Information do not require unique, state-specific data. However, many of these fields are required and data entry in these fields is necessary. For more information on these fields, see the Enrollments page.

General Enrollment Information Editor

Field	Description	Additional Information
Start Status and Start Date	Start Status indicates the reason for beginning the student enrollment, whether entering the school or district or continuing on from another grade. The Start Date indicates the start date of the enrollment record.	When creating an enrollment for a student, the student must have a Start Date and a Start Status. An enrollment cannot be saved without an entry in these fields.
End Status and End Date	The End Status indicates the reason a prior-year student has not enrolled in the district during the current school year. All students with an end-dated enrollment must also have an End Status assigned to it.	Users are not allowed to save an end-dated enrollment without an assigned End Status. However, this condition does not apply if the **No Show** checkbox is marked. If the No Show checkbox is marked, you can enter an End Status without an End Date.

Field	Description	Additional Information
No Show	A no-show student is defined as a student who is enrolled in the school but never attends class and does not officially withdraw from the school. Depending on district and/or state policy, enrollment records are ended after a certain number of school days.	The No Show checkbox is NOT used for state reporting. End Status is used to determine No Show students. Please refer to the End Status section to determine the appropriate End Status for a No Show student. No-show students also require an Enrollment End Date in order to be excluded from reports.
Service Type	The Service Type indicates the type of enrollment and the intended service the student receives. Service Types include (P) Primary, (S) Partial, and (N) Special Education Services. Click this Service Type link to navigate to the list of codes and descriptions for this field.	**Database Location:** Enrollment.serviceType **Ad Hoc Inquiries:** Student > Learner > Active Enrollment > Core elements > serviceType

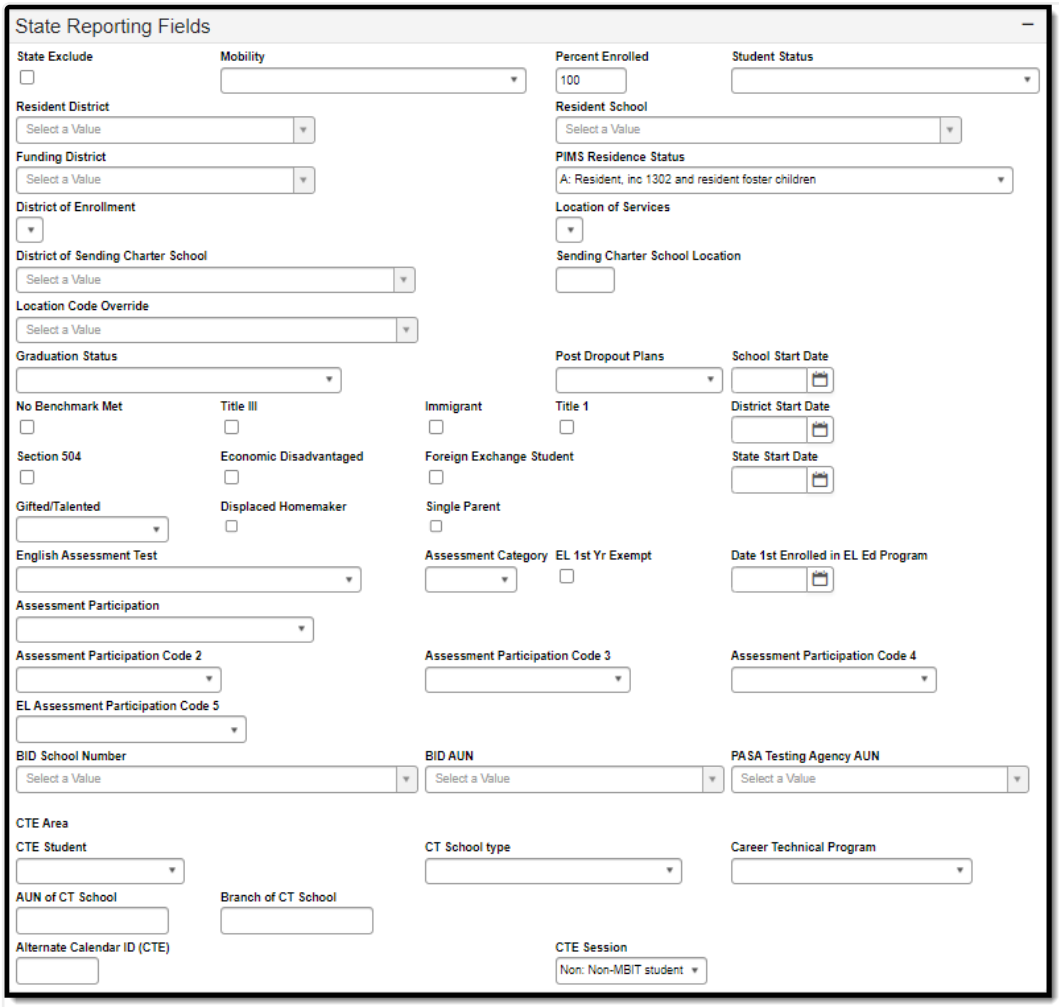

State Reporting Fields

Data entries made in the State Reporting Fields section of the Enrollments tool are unique to the state of Pennsylvania and may directly affect the way students are reported to the state department of education.

Every field on this editor, except the following, is included in state reports:

- CT School Type
- Career Technical Program
- AUN of CT School
- Branch of CT School

Updates to State Reporting fields overwrite previously entered data. To preserve this historical information, create a new Enrollment record when changes are needed. Deleting an Enrollment record is NOT recommended.

State Reporting Fields

Field	Description	Additional Information	Report(s)
No Show	When marked, this option excludes a student from reporting on Pennsylvania state reporting extracts.	Be aware that some reports may not recognize State Exclude preferences. Some reports may specify that all enrollments, even those marked as State Exclude, be included. In that case, the enrollment would be reported in that specific report regardless of what is selected in the State Exclude checkbox. **Database Location:** Enrollment.stateExclude **Ad Hoc Inquiries:** Student > Learner > Active Enrollment > State Reporting elements > stateExclude	The following reports exclude an enrollment when the State Exclude checkbox is marked: • PIMS Programs Fact Template • PIMS School Enrollment • PIMS Studen Award Fact Template • PIMS Studen Career Benchmarks Template • PIMS Studen Snapshot Template

Field	Description	Additional Information	Report(s)
			• PIMS Studen Template • PIMS Staff Snapshot Template • PIMS Staff Template • PIMS Staff Assignment Template • PIMS Staff Developmen • PIMS Staff Student Course Template • PIMS Staff Student Subtest • PIMS Course Template • PIMS Studen Course Enrollment Template • PIMS Course Instructor Template • PIMS School Calendar Template • PIMS Studen Calendar Template • PIMS CTE Student Fact Template • PIMS CTE Student Industry Credential • PIMS Location Annual Fact Template • PIMS Inciden Template • PIMS Person Template • PIMS Inciden Offender Template • PIMS Inciden Offender Infraction Template • PIMS Inciden Offender
