[Report Logic](#) | [Report Editor](#) | [Final Nutrition Count Report Layout](#) | [Student Nutrition Detail Report Layout](#)

The Nutrition Report provides an aggregate count of Free and Reduced Price Eligible Students by School, Calendar, and District in the state of Nevada.

Nutrition Report ☆

NV Nutrition Report

This tool will extract data to complete the Nevada Nutrition Report. Choose the State Format to get the file in the state defined PDF format for the Final Nutrition Count, otherwise choose one of the testing/debugging formats. The Student Nutrition Detail report can be run as a CSV file to analyze the accuracy of totals in the Final Nutrition Count.
Check **Include SES** to include students with an Eligibility Type of SES instead of only students with an Eligibility Type of Meal.

Report Options

The Effective Date displayed below is derived from the School Year selected in the toolbar. Calendars selected must overlap the Effective Date to report results.

Nutrition Report Editor

Report Logic

- Reports all enrolled students with a Free or Reduced Eligibility as of the Effective Date selected on the extract editor.
- To report, students must have an Enrollment type of **P** or **N** with a start date before or equal to the Effective Date selected on the extract editor.

- Students are NOT included if their enrollment ends before the Effective Date selected on the extract editor.
 - Enrollments with a State Start Status of E1, E3, E7, and R2 report.
 - E1: First entry in a school the current school year
 - E3: Pre K students without an IEP and any other Non-Funded students not specified in another code.
 - E7: Students living out of state and attending a NV School
 - R2: Re-Enrollment in the same school in the same year.
 - Only students with an Eligibility Type of **Meal** as of the Effective Date report UNLESS **Include SES** is marked on the Extract Editor.
 - Enrollments in State Grade Level **AD** are NOT included.
 - If a school is marked as CEP OR as Provision II (System Administration > Resources > School > Provision), all students in the school are considered **Free Other** regardless of existing FRAM records.
 - Enrollments marked No Show do not report.
-

Report Editor

Field	Description
Effective Date	Students with an active enrollment record as of this date will report.
Report Type	<ul style="list-style-type: none"> • Final Nutrition Count • Student Nutrition Detail
Include SES	When selected the reports include students whose Eligibility Type = SES.
Filter By	<p>Allows reports to be filtered by three selections.</p> <ul style="list-style-type: none"> • Calendar - Allows you to identify specific calendars to be run. • School - Allows you to identify specific schools to be run. • District - Runs the report using all applicable schools in the district. <p>Using District filtering will not allow individual calendars or schools to be selected on the right side of the screen. It is recommended to filter by District instead of selecting all Schools or all Calendars for a given year.</p>
Format	Determines the format for the report: CSV, PDF, or HTML. Use the State Format (PDF) when submitting the final data.
Calendar Selector	Selected calendar indicates which students will be included in the report. Multiple calendars can be selected at one time; it is recommended that all calendars in a district not be selected as this will increase the amount of time it takes to generate the extract. The calendar chosen in the Campus toolbar is already selected.
Grade Selector	Allows you to select students by grade level to narrow results.
Ad Hoc Filter	This option allows you to narrow report results to students included in the filter you select.
Generate Extract Submit to Batch Queue	<ul style="list-style-type: none"> • Generate Extract. The report will appear in a separate window in the designated format. • Submit to Batch. This process allows larger reports to generate in the background, without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.

Final Nutrition Count Report Layout

Element	Logic	Location
District Name	The district name associated with the chosen calendar(s).	School & District Settings > District > District Information > Name
	Only reports in the first row of data	District name
