**PATH:** *WA State Reporting > Student Programs (I)*

The Student Program File (I) reports information regarding student program participation from Flags, FRAM Eligibility, WA Sped (tab), Graduation (State Seal), LAP PLP, and Behavior (Truancy Referral) .

The screenshot shows the 'Student Attributes and Programs File (I)' report configuration page. The left sidebar lists various reporting options: Assessment, System Administration, FRAM, Surveys, BIE Reports, WA State Reporting (with sub-options for Location File (A) through Student Growth File (Q)), English Learners File (J), Student Special Ed Programs File (K), Ethnicity File (L), Race File (M), Student Absence File (N), Student Discipline File (P), and Student Growth File (Q). The 'Student Attributes and Programs File (I)' option is highlighted with a red box. The main configuration area is titled 'Student Attributes and Programs File (I)'. It contains 'Extract Options' (As of Date, Grade/Ad Hoc Filter, Format), 'Select Calendars' (active year, list by school, list by year), and a preview of available programs (14-15, 14-15 FACE HB, 14-15 ECEAP, 14-15 Elementary, 14-15 FACE CB, 14-15 High School, 14-15 Middle School, 14-15 NAM GRANT, 14-15 PTP). A note at the top of the configuration area explains reporting requirements for Flags, FRAM Eligibility, WA Sped (tab), Graduation (State Seal), LAP PLP, and Behavior (Truancy Referral).

Note the following:

- Information for the State Transitional Bilingual Instruction Program is not included in this file, but is reported in the [Student Bilingual Programs File \(J\)](#).
- Information for the Special Education Programs is not included in this file, but is reported separately in the [Student Special Education Programs File \(K\)](#).

## Report Logic

- Students must be actively enrolled on or between the calendar start date and the As-of Date selected on the extract editor.
- A Program (active range or single date) must be active on or between the calendar start date and the As-of Date selected on the extract editor.
- A record will not report If the student's enrollment is State Excluded or flagged No Show, or the

student's grade level maps to a State Grade Level Code that is State Excluded, or the Calendar of enrollment is State Excluded.

### Flags Logic

- A record reports from Flags for each actively enrolled student who has a state reported program active at least one day on or between the calendar Start Date and the extract As of Date (reporting window).
  - If the student exits and reenters the same program during the reporting window, two records report.
  - To report, the program must be flagged as State Reported.
  - Should a student have a reportable service, eligibility, or attribute entered in Campus AND a state reported Flag of the same state code, duplicate records may report.

### FRAM Logic

- A record reports for each actively enrolled student who has a FRAM Eligibility record active at least one day during the reporting window.
  - State Code View on the Eligibility must contain a value to report.
  - Should a student have multiple active FRAM eligibility records, the most recent is reported.

### WA BIE Sped Logic

- A record reports for each active Disability entered on the [WA BIE Sped](#) tab.
  - Students identified with a disability report regardless of special education status.

### Graduation: State Seal of Biliteracy Earned/Proficient Logic

- A record reports per WA State Seal of Biliteracy record entered for a student on their Graduation tab.
  - Either Date Earned and/or Date Proficient must fall on/between the reporting range (calendar state date and the Effective Date entered on the extract editor).

### LAP PLP: LAP (Learning Assistance Program) Participation Logic

- A record reports per LAP PLP that is active at least one day on or between the reporting range (calendar start date and the Effective Date entered on the extract editor).
  - Only LAP PLPs are reported.
  - If multiple LAP Student Growth Plans are active, multiple records are reported.
  - Records are reported from LAP PLPs only (System Administration > PLP > Plan Types > Print Format = LAP (current))
  - An active plan is determined by the Student Information > PLP > General > Documents > Learning Assistance Program Plan > Education Plan > Start Date & End Date

### Behavior Management: Truancy Action Logic

- A record reports per student offender / per Behavior Resolution mapped to one of the following Resolution State Codes:
  - 50: Truancy Petition filed with Juvenile Court
  - 51: Referral to a Community Truancy Board
  - 52: Truancy - Other Coordinated Means of Intervention
  - 53: Truancy - A Hearing in the Juvenile Court

- 54: Truancy - Other Less Restrictive Disposition
- 55: Truancy - Detention for Failure to Comply with Court Order
  - A Behavior Incident must be entered for the student in Campus with an Behavior Event, a Participant and a Behavior Resolution assigned where:
    - The Resolution StartDate must fall on/between calendar start date and the effective date entered on the extract editor.
    - If the Resolution Start Date is null, no record is reported.
  - Mapped State Resolution Codes of 50, 51, 52, 53, 54, and 55; do not report in Student Discipline File P.

See the [Program Codes](#) table for a list of codes that will report records.-

## Generating the Report

1. Enter the **As of Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date.
2. Select which students will be included in the report:
  1. **Grade** - Select which grades will be reported.
  2. **Ad Hoc Filter** - Select an Ad hoc filter to further narrow report results.
3. Select the appropriate **Format**. Options are CSV, HTML and Tab Delimited (State Format).
4. Select the **Calendar(s)** that should be included in the report.
5. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. The generated extract is available in the Process Inbox For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

## Exit Reason Options

Exit Reason Codes report based on the type of record reported. State reported Flags records must have a Program Exit Date selected that falls in the reporting range. FRAM records must have an Eligibility End Date that falls in the reporting range. For both Flags and FRAM reporting types, if the student exited their enrollment during the reporting range, Exit Reason reports based on the enrollment end status selected.

Code	Description	Reporting Logic
<b>A</b>	Program no longer needed	A new FRAM Eligibility of Paid exists after a reportable Eligibility record.
<b>B</b>	Graduated	An enrollment End Status of GO or GA.
<b>C</b>	No longer enrolled	A new FRAM Eligibility other than Paid is entered after reportable Eligibility record. An enrollment End Status Other than GO or GA. A sequential School History record with no Provision status.
<b>D</b>	Opted out of program	Eligibility Certified Type is Declined.
<b>F</b>	Other	N/A

## Program Codes

A Program record reports for participating students when State Reported is flagged for the Flag (System Administration > Programs > Flags > Flag Editor > Program).

Program codes are not stored. Records return solely based on the flagged State Reported check box. The Codes as listed below were active on the date of publication. Please refer to [CEDARS documentation](#) for a current list of valid state codes.

Additional set up in Flags may cause duplicate record return for those programs pulled from other areas of the product (FRAM, LAP PLP, WA SPED tab, Behavior Resolution, and Graduation State Seal).
