The **Records Transfer** tab is one part in the District to District records transfer process provided within Infinite Campus. This process provides a method to electronically share data between two districts with a common entity, such as state, region or governmental body.

In order for the records of a student to be transferred, the state (or common entity) must have a record of the student.

Below the search bar, the page title is 'Records Transfer' with a star icon. A breadcrumb trail shows 'Student > General > Records Transfer'. Request Date	Name	Status	Requesting District	Releasing District
