Kentucky Attendance Wizard

Mass Adding/Modifying/Deleting Student Attendance Information

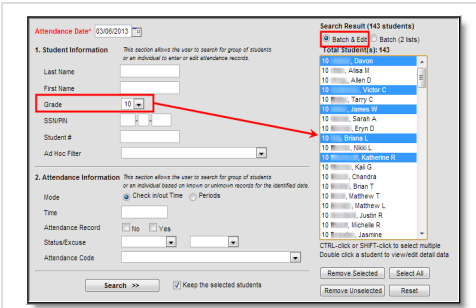

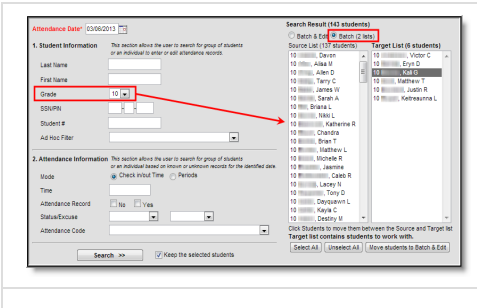

Mass adding/modifying/deleting student attendance information using the Kentucky Attendance Wizard is a two step process. The following sections will walk you through this process.

- [Step 1. Search for Students Based on Demographic or Attendance Information](#)
- [Step 2. Input New Attendance Information](#)

Step 1. Search for Students Based on Demographic or Attendance Information

Students can be searched for based on demographic information.

Searching by Demographic Information

Searching by Student Information and Selecting Students by Batch & Edit	Searching by Student Information and Selecting Students in Batch List
	

1. Enter the **Attendance Day**. This date determines which attendance days are used for matching search criteria.
2. Enter **Last Name, First Name, Grade, SSN** and/or **Student Number** information to generate a list of students based on search criteria entered.
3. Select the **Search** button. Students matching search criteria will appear in the Search Results window on the right. In the images above, students are searched for by grade level.
4. Select which students will have attendance data modified. Users can select students using one of two options:

Option	Description
Batch & Edit	Allows you to select a group of students (by holding down CTRL when selecting) and remove the selected students or remove the unselected students to create a list of students who will have their attendance records modified.
Batch (2 Lists)	Allows the user to build a list of students who will have attendance data modified (Target List) by selecting them from the Source List.

5. Proceed to [Step 2](#).

Students can also be identified based on attendance information.

Searching by Attendance Information

Searching by Attendance Check In/Out Time Information

Searching by Attendance Period Information

1. Enter the **Attendance Day**. This date determines which attendance days is used for matching search criteria.
2. Select the **Mode**.

Option	Description
Check In/Out Time	Users are given options for searching for students based on Check In/Check Out information.
Periods	Users are given options for search for students based on period information.

3. Select the **Search** button. Students matching search criteria will appear in the Search Results window on the right. In the images above, when Attendance Record is marked as **No**, search results are based on students who did not have attendance entered on the Attendance Date.
4. Select which students will have attendance data modified.
5. Proceed to [Step 2](#).

Step 2. Input New Attendance Information

Once students have been identified and selected in the Search Results window, users will need to enter the attendance information that is going to be applied to these students. Users can modify attendance information using the following three methods:

- [Batch Modifying Check In/Out and Attendance Code Information](#)
- [Batch Modifying Check In/Out and Attendance Code Information for Multiple Days](#)
- [Batch Adding/Deleting Whole Day Attendance Records](#)

Batch Modifying Check In/Out and Attendance Code Information

The **Check In/Out** Saving Mode allows users to mass enter Check In/Out and Attendance Code data for the selected student or group of students.

3. Input Attendance Information and Click Save 04:01:09 PM

This section allows the user to input attendance information for selected students in batch or for an individual student.

Saving Mode Check In/Out Batch Check In/Out (Multiple Days) Whole Day

Check Out Check In Attendance Code*

[Show Period Schedule](#) Status: A Excuse: E State Code: E

Click [Check Out](#) or [Check In](#) to set it as current time. Type 1100 for 11:00 AM.

Comments
