Option	Description
<b>Snapshot Date</b>	Entered dates are used to return students enrolled during that time frame. Enter dates by typing in MMDDYYYY format or by using the calendar icon to select a date. Per state recommendations, use the last day of school.
<b>Report Type</b>	The following options are available: <ul style="list-style-type: none"> <li>• <b>School Summary:</b> The School Summary report type reports an aggregated student count by grade level.</li> <li>• <b>Detail:</b> The Detail report type reports individual students that are associated with a reported grade level.</li> </ul>
<b>Format</b>	Determines the format for the report. Use the State Format (CSV) when submitting the final data. Use HTML for data review and testing.
<b>District-Wide</b>	When marked, all schools in the active school year are selected for inclusion in the report.
<b>Ad hoc Filter</b>	Selection includes only those students in the filter.
<b>Select Calendars</b>	Selected calendar indicates which students are included in the report. Multiple calendars can be selected at one time. It is recommended to avoid selecting all calendars in a district as this increases the time required to generate the extract. The calendar chosen in the Campus toolbar is already selected.
<b>Generate Report / Submit to Batch</b>	The report can be generated immediately using the <b>Generate Report</b> button. When there is a larger amount of data chosen (several calendars, large date range, etc.), use the <b>Submit to Batch</b> button, which allows the user to choose when the report is generated. See the <a href="#">Batch Queue</a> article for more information
