Required Setup - Program Course Requirements

PATH: [Program Admin](#) > [Programs](#) > [Expand Program](#) > [Course Requirements](#) > [Transcript/Course Number\(s\)](#)

Course Requirements for an Academic Program are set by entering a list of course numbers in the Transcript/Course Numbers field shown below. The course numbers entered here determine how the Grade Requirement Indicator field reports. Academic Programs must also have a Code of GRAD and be marked as State Reported.

Report Logic

All active courses that have SCED Subject Area and SCED Course Identifier Code populated on the Course tab in the selected calendar will appear in the report. Courses which have the State Exclude checkbox marked will not be included in the report.

These fields are set in the [NCES Data section](#) of the Courses tab.

Early Education Subreport

An [Early Education subreport](#) generates with records for each course when the following is true:

- Course has an SCED Course Identifier selected.
- Course has an SCED Subject Area of 81 or higher.
- Course is active (unless the Inactive Courses checkbox is marked).

If more than one record is found with the same State Course Code, the record with the highest courseID reports.

For guidance in validating the XML file against your state's schema using a free, third-party program, see the [Validating an XML File Against a Schema File](#) article.
