Tool Search: School Performance Report

The Post-Graduation Follow-Up Report collects data about twelfth grade students and their projected plans following high school graduation. These plans are reported by ethnicity and gender. Information is collected over the entire school year and should be submitted to DPI by June 30. Data must be locked in and submitted to the Department of Public Instruction by this date.

WI School Performance Report State Extracts

The SPR extracts provide data to complete the Wisconsin State-defined School Performance Reports. Four reports are available: Habitual Truancy, Extra Co-Curricular, Post-Graduation and School Sponsored Community. Use the State Format to generate a CSV file for upload to the Wisconsin DPI SPR system. Use the HTML, PDF and CSV Detail formats for troubleshooting or analysis.

Post-Graduation Follow Up

Report Logic

The Post-Graduation Follow-Up requires the following information in the reporting calendar in order to be included:

- The **Grade Level of Enrollment** must be a State Grade Level of 12 (*Student Information > General > Enrollments > General Enrollment Information > Grade*).
- The **Diploma Date** field is populated with the date of graduation (or last day of school) (*Student Information > General > Graduation > Diploma Date*). The enrollment that is reported must be active on the Diploma Date. If there are no enrollments active on the diploma date, the enrollment with the most recent end date reports; if there are multiple enrollments with the same enrollment type, the enrollment that has a School Override Field populated reports. Otherwise, the enrollment with the lowest enrollment ID reports.
- The **Post Grad Plans** field is populated (*Student Information > General > Graduation > Post Grad Plans*)

Excluded Students

Students are not included in this report when:

- Their enrollment record is marked as No Show or is marked as State Exclude.
- They are enrolled in a grade level marked as State Exclude.
- They are enrolled in a calendar marked as State Exclude.

Report Editor

Data Element	Description
Extract Type	Indicates which SPR Extract is being generated. For this instance, choose the Post-Graduation Follow-Up option.
Format	Determines how the report is generated. Options are: <ul style="list-style-type: none"> • State Format (CSV) • HTML • Detail Format (CSV) • Detail Format (PDF)
Calendar	Indicates which school and year is being reported. Calendars can be selected by active year, school name or by year.

Data Element	Description
Student Selection	<p>Select students to include on the report by choosing either a Grade level of enrollment for the students or an Ad hoc Filter.</p> <ul style="list-style-type: none"> To include students in all grade levels, choose All Students in the Grade Level options. Selecting an existing ad hoc filter reports only those students or courses included in those filters, if they meet the reporting requirements of the report.
Report Generation	<p>Use the Generate Extract option to immediately produce the report. Or, use the Submit to Batch option to choose when the report should generate. This option is helpful when the amount of data being returned is large and could tax the server. Choosing a time after normal school hours may be best. See the Batch Queue article for more information.</p>

Generate the Report

1. Select the **Post-Graduation Follow-Up** option from the **Extract Type** dropdown list.
2. Select the **Format** in which to generate the report.
3. Select the **Calendars** to include in the report.
4. Select the students to include in the report by choosing either a **Grade** level or an **Ad hoc Filter**.
5. Click the **Generate Extract** button to display the report immediately, or use the **Submit to Batch** button to determine when the report should generate. The report displays in the selected format.

Sample images of each format type are included in the Report Layout sections.

HTML and State Format Report Layout

The HTML and State Formats meet the reporting needs as defined by DPI. The State Format is the only format that should be submitted to the state and does not include any column headers.
