Student Reporting in Iowa (SRI) State Extracts

This tool will extract data to complete the IA State-defined reporting extracts. Choose the State Format to get the file in the state defined file format, otherwise choose one of the several testing/debugging formats. Each extract contains a 1 line header and footer record. The State Fall and Spring collections interface a Student demographic record with course and expulsion records, but the testing/debugging formats have each type separated out.

Extract Options

Extract Type

Student ID and State Locator

Effective Date

08/21/2025

Student ID and State Locator

Generating the Extract

1. Select the **Extract Type** to be generated, in this case, *Student ID and State Locator Report*.
2. Enter an **Effective Date** in *mmddyyyy* format or click the calendar icon and select a date to pull data as of the date entered.
3. If desired, mark the checkboxes to include **Students without State IDs** and/or **Inactive Students**.
4. Select an **Ad hoc Filter** to limit the students in the report to those included in the filter.
5. Select the **Format** in which the report should be generated. CSV, XML, and HTML formats can be used for data review and verification, and the State Format should be used when submitting data to the state.
6. Indicate which **Calendar(s)** should be included in the report.
7. Click **Generate Extract** to generate the report in the designated format.
