Pre ID Label Extract

This editor will create either the HSPA, EOC Biology, or NJASK Pre ID Labels in either Fixed Width, CSV or HTML format based on the calendar(s) and grade(s) selected. You may also use a saved Ad Hoc Filter for student definition. Match will be done on NJ State ID (SID). Please note that NJASK now includes a Teacher Sort (Column 29) that can be used for sorting labels but must be deleted prior to submission.
