Field	Description
Pre ID	Selection indicates which assessment for which the labels will generate.
Effective Date	The entered date reflects the students' active enrollment date. A student not enrolled (enrollment ended) on the entered date will not be included in the labels unless the Include Active Students checkbox is marked. Use Enrollment Programs	Program participation records are reported when the checkbox is NOT selected (the default). When the checkbox is marked, program fields on the enrollment record are considered.
Grade Level	Indicates the grade level of enrollment for which the labels will generate.

Field	Description
Ad Hoc Filter	If a filter is selected (and not a grade level), labels will only generate for students included in the filter.
Format	Determines how the labels will be generated. • State Format (Fixed Width) • CSV • HTML
Include Inactive Students	When selected, inactive students will be included in the extract, regardless of the entered Effective Date.
Exclude Cross-Site Data	Cross-site section enrollment data is **not** included in the report when checked. • Cross-site enrollment functionality must be enabled at the district level for the checkbox to display. • Defaults to checked.
