District assignments should be entered for all employed staff members. This record is used as a basis for scheduling teachers, as only active teachers of a selected school (those with a current District Assignment record within the school for the appropriate date range) can be assigned to course sections.

Adding District Assignment Information

The Employment Assignment Information editor contains information on a staff member's district assignment and can be modified as necessary.

State Titles have School Required, Subject Required, and Level Assignment Required title requirements for how each code is validated within the Staff Assignment Import and how certain fields behave on the Staff Assignment editor.

See the table below for more information about each column:

Column	Description
School Required	 The school requirements for each State Title. This is used on the Staff Assignment detail editor. If the value is Y, the assignment must be school-specific. if the value is N, the assignment must be district-wide (cannot be tied to a specific school). If the value is O, the assignment can be either school or district-specific.
Subject Required	 The subject requirements for each State Title. This is used for validation on the Staff Assignment detail editor. If the value is Y, the Subject Matter is required. if the value is N, the Subject Matter field is disabled. If the value is O, the Subject Matter field is optional.
Level Assignment Required	 The assignment requirements for each State Title. This is used for validation on the Staff Assignment editor. If the value is Y, Level of Assignment is required. if the value is N, Level of Assignment is disabled. If the value is O, Level of Assignment is optional.

Ending a District Assignment

To indicate that a staff member's existing district assignment record is no longer applicable:

- 1. Enter a date in the **End Date** field.
- 2. Click the **Save** icon when finished.
