Tool Search: STAR LA

The STAR LA Extract collects demographic data for all staff employed in positions which the State Board of Teaching or the Minnesota Board of School Administrators require licensure.

MN STAR LA, and NA Extracts

This tool will extract data to complete the MN STAR LA, and NA reporting extracts. The STAR extracts will extract data from the Human Resources module. Choose the State Format to get the file in the state defined file format, otherwise choose one of the testing/debugging formats.

STAR LA Extract Editor

Report Logic

The STAR LA Extract reports one record per licensed staff member. The most recent record prior to or on the Snapshot Date is reported. In order to report, the following must be true:

- Staff that have at least one or more active Work Assignments where Human Resources > Administration > Position Code > STAR Extract = LA on the Snapshot Date of the extract editor report.
- Staff who only have Work Assignments marked as NA or Do not report are not included.
- Staff can report on the LA and NA extract if they have one or more Work Assignments marked as LA and one or more Work Assignments marked as NA.
- Staff that are hired and immediately terminated do not report; e.g., the Hire Date is after the Previous Snapshot and the Termination Date is before the current Snapshot.

- Work Assignment will report based on assigned Work Location. Multiple Work Locations will only report one record.

Years of Experience Fields

The **Years of Experience** fields indicate the number of years of experience acquired by an individual serving in an assignment for which licensure is required. A value only reports if the individual is employed as a licensed school staff member for the first time in Minnesota and has previous experience in another state/country or is returning to the Minnesota public school system after a break in service.

- If staff serve in more than one position, experience is reported in only one category with precedence as follows: Superintendent, Principal, Teacher, Other. For example, if the Superintendent also has experience as a Teacher, Campus sums the values and reports under Superintendent.
- When Work History records contain an End Date, Campus calculates the months for each record then sums and converts to years and reports that value.

Generate the Extract

1. Select *STAR LA* as the **Extract Type**.
2. Enter a **Snapshot Date** in *mmdyyy* format or by clicking the calendar icon and selecting a date. Only data active as of this date will be included in the report.
 - Submission 1
 - Submission 2
3. Enter a **Previous Snapshot Date** in *mmdyyy* format or by clicking the calendar icon and selecting a date. This date indicates the last time the report was run.
4. Select the **Additional Pay Types** to include in the report. (*optional*)
5. Select the **Format** in which the report should generate. Use *State Format (Fixed Width)* for submission to the state and *CSV* or *HTML* for data review and verification.
6. Click **Generate Extract** to view the report in the selected format.
