Health vaccines and their associated compliance listings are based on state guidelines. While Infinite Campus maintains standard guidelines for all states, districts can enter additional compliance information. The following information describes vaccine compliance rules defined by the New Hampshire Department of Health.

For more information on creating, modifying, or deleting vaccine compliances, see the [Vaccines](#) page.

General Compliance

- Vaccine doses administered less than or equal to 4 days before the minimum interval or age are considered valid.
- Doses administered 5 days before the minimum interval or age are not considered valid and must be repeated as age-appropriate.
- Vaccines given before 6 weeks of age are not considered valid, with the exception of Hepatitis B.
- Half doses or reduced doses of a vaccine are not considered valid.
