Tool Search: SPED IEP Interchange

The Student Parent Association Report collects adult contact information for those students whose AU or SOP is part of the indicator 8 or 13 Sampling Plans for the current collection year.

Student Parent Association Extract Editor

Report Logic

At least one of the following must be true in order for a student to be reported:

- At least one date (Special Education Start Date, Special Education End Date) falls within the reporting period.
- The student has an active and locked IEP AND at least one date of the plan falls within the reporting period.
- The student has an active and locked Evaluation AND the Effective Date of the evaluation falls within the reporting period.

Only one record per administrative unit code reports for the student.

This report does NOT include students who have an ILP or other plan type that is not an IEP.

Records are not included when:

- The student's enrollment record is marked as a No Show.
- The enrollment record is marked as State Exclude.
- The Grade Level of enrollment is marked as State Exclude.

- The Calendar selected is marked as State Exclude.

Non-Binary Gender Reporting

Schools can assign students a gender of M: Male, F: Female or N: Non-binary. This is done on the [Identities](#) tool and/or the [Demographics](#) tool.

Data Pipeline Extracts and other required extracts use the Legal Gender field included in the Protected Identity Information to report student identity information.

To properly record a gender of N: Non-Binary, on the Identities tool:

1. Assign the **Gender of N: Non-Binary** in the standard identify fields.
2. Assign the **Protected Identity Information Legal Gender** field to M: Male, F: Female or N: Non-Binary.
3. Save the record when finished.

The screenshot shows the 'Identities' tool interface for a student named Luka A. The 'Gender' dropdown menu is set to 'N: Nonbinary' and the 'Legal Gender' dropdown menu is set to 'Female'. Both dropdown menus are highlighted with red boxes. The interface also shows fields for Last Name (Student), First Name (Luka), Middle Name (Andrea), and Suffix. The 'Protected Identity Information' section includes fields for Legal Last Name (Student), Legal First Name (Luka), Legal Middle Name, and Legal Suffix. The 'Legal Gender' dropdown is also highlighted with a red box. The caption below the screenshot reads 'Gender and Legal Gender Assignment'.

Report Editor

Field	Description
Report Type	Selection determines the Special Education Interchange report that generates. Choose Student Parent Association .
Ad hoc Filter	Select a saved ad hoc filter to only include those students in the filter in the report, assuming those students meet the reporting logic and business rules of this report.

Field	Description
Start Date/End Date	The entered date is auto-populated to the current first and last dates of the selected calendar in the Campus toolbar. Students who have an Evaluation or IEP during the entered date range, even when the enrollment record is ended during the date range, are included on the report.
Report Legal Name	When marked, the student's name and gender report from the Protected Identity Information section on the student's Identities record.
Report Format	The School Association report can be generated in either CSV or HTML formats.
Calendar Selection	At least one calendar needs to be selected in order to generate the report. Reports can be selected by Active Year, School or Year.
Report Generation	Use the Generate Report button to display the results of the report immediately. Use the Submit to Batch option to determine when the report generates. Submit to Batch is helpful when generating the report for multiple calendars and a large range of dates.

Generate the Report

1. Select the **Student Parent Association** from the **Report Type** field.
2. If desired, select students from an existing **Ad hoc Filter**.
3. Enter the desired **Start and End Dates**.
4. Mark the **Report Legal Name**, if desired.
5. Select the **Report Format** of the report.
6. Select the **Calendar(s)** from which to report information.
7. Click the **Generate Extract** button or the **Submit to Batch** button. The report displays in the desired format.
