The Request for UIC Extract allows districts to resolve issues related to reporting students without UIC (StateID).

MSDS Request for UIC Editor

All students reported must have a UIC to successfully submit student data to MSDS. This report allows districts to identify students lacking a UIC and submit this information to the State so a UIC can be assigned.

Report Logic

- Report a record for all active and inactive students enrolled in the selected calendar(s) during the date range entered on the extract editor.
- If a date is only entered in the Count Date field, a data snapshot is taken as of that date.
- Students with the State Exclude checkbox selected on their enrollment record will not be

included in the extract.

- The most recent enrollment record before the Count Date is used when reporting data.

Generating the Report

1. Select the Request for UIC**Extract Type**.
2. Enter the **Count Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date. If no date is entered in the Previous Count Date field, a data snapshot is taken as of this date.
3. Enter the **Previous Count Date** in *mmddyyyy* format or by clicking the calendar icon and selecting a date. This date correlates with the Count Date entered to create a date range. Student data within this data range will report.
4. If desired, check the **Students w/o UICs** checkbox. This checkbox means only students within the selected calendar(s) who do not have a State ID assigned are reported.
5. Select the **Submitting Entity**. This describes the entity submitting the extract to the state.
6. Select the **Format**. For submission to the state, use the State Format (XML).
7. Select an **Ad hoc Filter** to limit the records reported. When an Ad hoc Filter is selected, the report is based on the options selected in the editor, not the Campus toolbar.
8. If desired, check the **Validate** checkbox. This checkbox means Infinite Campus will run a check on the XML data to validate its correctness. If errors are found, the extract will list them for correction based on the schema.

> For guidance in validating the XML file against your state's schema using a free, third-party program, see the Validating an XML File Against a Schema File article.
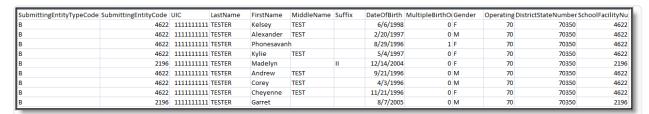

9. Select which **Calendar(s)** to include within the extract.
10. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users can submit a report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process allows larger reports to be generated in the background without disrupting the use of Campus. For more information about submitting a report to the batch queue, see the Batch Queue article.

Submitting Entity		

Element	Description	Location
Submitting Entity Type Code	Reports the Submitting Entity. Reported values include: • A: Agreement Number • D: District • B: Building *Alphanumeric, 1 character*	MI State Reporting > MSDS Extracts > Submitting Entity Not dynamically stored
Submitting Entity Code	The state-assigned identification code of the entity submitting the extract. If the Submitting Entity = D: District, the State District Number is reported. If the Submitting Entity = B: Building, the School Override is reported. If School Override is null, the State School Number is reported. *Alphanumeric, 10 characters*	Student Information > General > Enrollments > State Reporting Fields > School Override; School & District Settings > Schools > School Information > State School Number District.districtID Enrollment.schoolOverride School.schoolID
Personal Core		
UIC	The student's Unique Identification Code (UIC), also known as the State ID. *Numeric, 10 characters*	Census > Demographics > Person Identifiers > Student State ID
Last Name	The student's legal last name. *Alphanumeric, 25 characters*	Census > People > Demographics > Last Name Identity.lastName
First Name	The student's legal first name. *Alphanumeric, 15 characters*	Census > People > Demographics > First Name Identity.firstName
Middle Name	The student's middle name or initial. *Alphanumeric, 25 characters*	Census > People > Demographics > Middle Name Identity.middleName

Element	Description	Location
Suffix	The abbreviated name suffix that follows a student's full name and provides additional information about the student. *Alphanumeric, 9 characters*	Census > People > Demographics > Suffix Identity.suffix
Date of Birth	The student's date of birth. *Date field, 10 characters*	Census > People > Demographics > Person Information > Birth Date Identity.birthDate
Multiple Birth Order	Indicates the student is part of a multiple birth. This field is intended to provide some distinguishing data for cases where the cultural practice is to provide twins (triplets, etc) of the same gender with the same first name, or where children of the same gender have similar first names. If null, reports as 1. *Alphanumeric, 1 character*	Census > People > Demographics > Multiple Birth Order Identity.multipleBirthOrder
Gender	The student's gender. *Alphanumeric, 1 character*	Census > People > Demographics > Gender Identity.gender
School Demographics		
Operating District Number	The State-assigned district number. *Numeric, 5 digits*	School & District Settings > District > District Information > State District Number District.stateNumber

Resident LEA Number	State assigned, five-digit code for the district in which the student resides. *Numeric, 5 digits*	Student Information > General > Enrollments > State Reporting Fields > Resident District Enrollment.residentDistrict
Student Resident County	Primary county code in which the child resides. *Numeric, 2 digits*	Census > Addresses > Address Info > County Address.county

Element	Description	Location
Ethnicity	The student's race ethnicity. This field is an aggregate field in which character positions pertain to a specific race. For example, a student who is considered Asian (010000) and White (000010) would report a value of 010010, indicating both race ethnicity values. The following describes each race and corresponding character position: • American Indian or Alaska Native = 100000 • Asian = 010000 • Black or African American = 001000 • Native Hawaiian or Other Pacific Islander = 000100 • White = 000010 • Hispanic/Latino = 000001 *Numeric, 6 digits*	Census > People > Demographics > Race Ethnicity Identity.raceEthnicity
Enrollment		
Enrollment Date	The month, day, and year of the first day the student enrolled in the district. If a student exits the district and then re-enrolls, the date of re-enrollment should be reported in this field. The date in this field should not change if a student is merely changing buildings within the same district. *Date field, 10 characters*	Student Information > General > Enrollments > Start Date Enrollment.StartDate
Enrollment Type	Indicates the type of enrollment record submitted. *Alphanumeric, 1 character*	Student Information > General > Enrollments > Service Type Enrollment.Type

Element	Description	Location
