[Behavior Setup](#) | [Behavior Management](#)

The Behavior Setup and Behavior Management sections below describe behavior fields specific to the state of Nevada. For all other inquiries, please visit the [Behavior Management Tool](#) article.

In Nevada, Behavior Event Types mapped to a State Event Code (Mapping) and Behavior Resolution Types mapped to a State Resolution Code (Mapping) will sync from the Nevada District Edition to the Nevada State Edition in real time. Behavior Incidents that are not state-mapped will not sync to the State Edition unless a state-mapped resolution is added to the event.

Behavior Setup

The Behavior Office functionality allows users with the necessary tool rights to set up behavior events/incidents, resolutions, and responses. Below are Behavior fields specific to the state of Nevada. For all other inquiries, please visit the [Event Types](#) article.
