Tool Search: Custom Help Article Setup

The Custom Help Articles tool allows you to create your own help articles, available to all users within your district. This tool provides you with a robust WYSIWYG editor, allowing you to enter text and images for building the article as well as easy to navigate system for aligning the article to a specific tool within Campus.

Custom Help Articles Tool

See the [Custom Data and Links Tool Rights](#) article for information about tool rights for this and related tools.

Create a New Custom Help Article

To create a new help article, click the **New** icon in the upper left-hand corner (Image 3). The Custom Help Article editor will appear.

The screenshot shows the 'Custom Help Articles' list page with a 'New' button highlighted. A red arrow points from this button to the 'Title' field in the 'Custom Help Article' dialog box, which is overlaid on the list page. The dialog box contains fields for 'Title', 'Custom Body Text', 'Path', and 'Last Updated', along with a rich text editor for 'Body Text' and 'Save' and 'Close' buttons.

Title	Custom Body Text	Path	Last Updated
PA Census Fields	... (Lorem ipsum placeholder)	Census > People > Demographics	August 24, 2015
Required Demographics Fields	This is a test article that is not real. Duo malorum labi...	Census > People > Demographics	August 24, 2015

Image 3: Creating a New Help Article

Enter a **Title** for the article. This is the title that will appear at the top of the article (Image 4).

Enter keywords within the **Keyword Search** field. Keywords are factored into help article search results (Image 4).

Only a space is required between each keyword entered.

Indicate the tool(s) being described in the help article by entering the tool's **Path** (Image 4). This field is dynamic and will continue to narrow tool results as you continue to enter more characters.

For example, in the image below (Image 4), the user has entered 'Census >' and is given a list of tools with a path beginning with 'Census >'.

Custom Help Article

*Title
PA Relationships

*Keyword Search
Add keyword(s) that will be factored into help article search results.
Only a space is required between each keyword entered.
relationships people

Path
Census > |
Census > Portal Request Processor > Family Contact Info Requests
Census > People > Credentials
Census > Portal Request Processor > Family Relationship Requests
Census > People > Relationships
Census > Reports > Impact Aid Report
Census > People > Person Documents
Census > Addresses > Address Info
Census > Ed-Fi Locator
Census > People > Demographics > GUID
Census > Reports > State Person/Identity Verification
System Administration > Census > Relationship Type
Census > My Data > My Credentials
Census > My Data > My Requests
Census > Staff Request Processor
Census > People
Census > Reports > Mailing Labels
Census > Addresses

Image 4: Entering the Title, Keyword Search, and Path

Once a path has been entered/selected, it will appear as a box within the **Path** field (Image 5). To remove this path, select the X on left-hand side of the box. To add another path, proceed by entering characters within the **Path** field.

Custom Help Article

*Title
PA Relationships

*Keyword Search
Add keyword(s) that will be factored into help article search results.
Only a space is required between each keyword entered.
relationships people

Path
x Census > People > Relationships | 

Body Text
<>                        

Image 5: Viewing an Entered Path

Once the Title, Keyword Search, and Path have been entered, write the **Body Text** of the article (Image 6).

The Body Text field provides standard WYSIWYG functionality. See the [WYSIWYG Editors](#) article for more information.

Required Demographics Fields	This is a test article that is not real. Duo	Census > People > Demographics	August 24, 2015

Image 7: Saved Help Article

How Users Access Saved Custom Help Articles

There are two ways in which users can access custom help articles within Campus.

The first way is to select the question mark icon in the upper right-hand corner of Campus (Image 8). All custom help articles related to the tool which the user was using at the time they pressed the question mark icon will appear in a separate window under the District Defined Help section (Image

8).

If a custom help article fails to appear within the District Defined Help section, ensure the Path of the help article matches the tool in which the user was using at the time in which they selected the question mark icon.

Users will also be given all documentation, videos, simulations, hands-on virtual labs, and curriculum related to the tool within the Infinite Campus Defined Help section (Image 8).

Image 8: Accessing Help via the Question Mark Icon

The second way users can access custom help articles is to go to the **Search** tab, select a search value of **Help**, enter search criteria, and select the **Go** button (Image 9).

Search results will appear in a separate window, with custom help articles appearing in the District Defined Help section and any relevant documentation, videos, simulations, and curriculum appearing in the Infinite Campus Defined Help section (Image 9).

Image 9: Searching for Help Articles

Custom help articles created by users at the state level will see their articles within the State Defined Help section of search results (Image 10).

Custom help articles created at the state level are not available for district users as they are not published down from state to district.

Image 10: Example of a State-Level Custom Help Article

Modify a Custom Help Article

Custom help articles can be modified by selecting the article from the Custom Help Articles list, modifying any values within the Custom Help Article editor, and selecting the **Save** button (Image 11).

The image shows two windows related to custom help articles. The top window is titled 'Custom Help Articles' and lists two entries:

Title	Custom Body Text	Path	Last Updated
PA Census Fields	Custom Body Text (redacted)	Census > People > Demographics	August 24, 2015
Required Demographics Fields	This is a test article that is not real. Duo malorum labi	Census > People > Demographics	August 24, 2015

The bottom window is titled 'Custom Help Article' and shows the details for the 'PA Census Fields' article. It includes fields for Title, Keyword Search, Path, and Body Text, along with a rich text editor and a toolbar. A red arrow points from the 'PA Census Fields' entry in the list to the 'Title' field in the detail view.

Image 11: Modifying a Custom Help Article

Delete a Custom Help Article

To delete a custom help article, select the article from the Custom Help Article list and click the **Delete** button (Image 12). The article is no longer saved to the database and can no longer be accessed by users.
