

# English Learners File (J) (Washington)

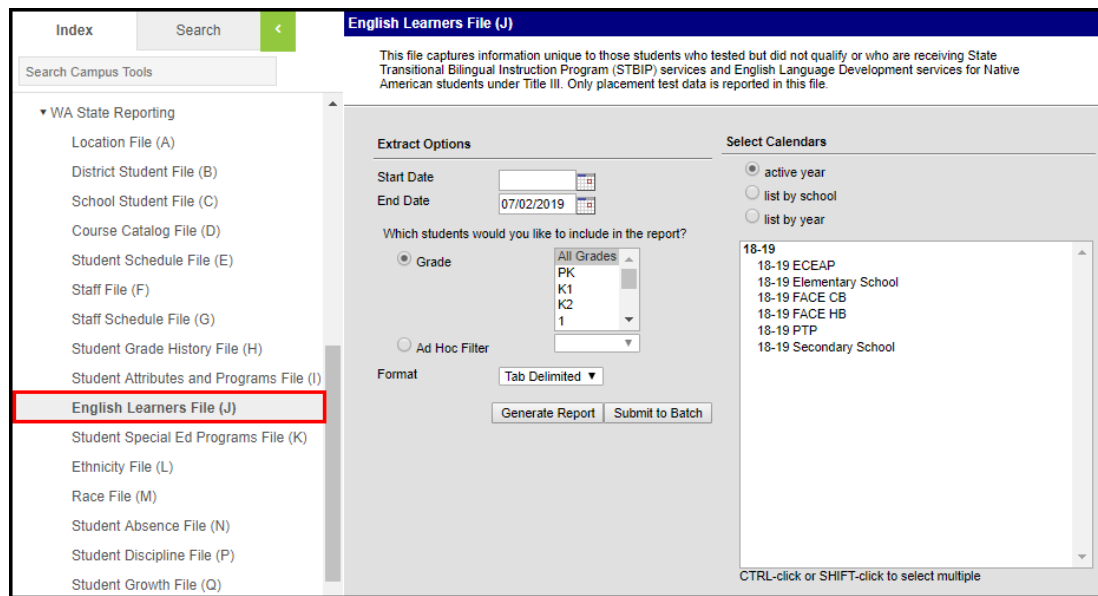

Last Modified on 05/14/2025 10:03 am CDT

[Report Logic](#) | [Generating the Report](#) | [Report Layout](#) | [LID Assessment Setup](#)

**PATH:** *WA State Reporting > English Learners File (J)*

The English Learners File (J) extract reports information unique to students who tested but did not qualify for, or who are receiving, State Transitional Bilingual Instruction Program (STBIP) services and English Language Development services for Native American students under Title 3. If a student enters, exits and re-enters the service, two entries report to reflect the two separate enrollments.

Based on Federal and state guidelines, Campus is interpreting entrance and exit into STBIP as entrance and exiting EL. This report does not return a record for each exit and entrance into a specific instructional model or EL service.

*English Learners File (J) Extract*

## Report Logic

- State Excluded students, grades and calendars, as well as No show students do not report.
- A record pulls for each active Primary enrollment during the time their program is active within the reporting range.
- State Excluded Calendars, Grade Levels, Enrollments do not report. Enrollments flagged 'No Show' do not report.

To be included in the extract, students must meet the requirements of one of the following reporting groups:

- **Initial LID Assessment** (no LEP):
  - The student is actively enrolled at any time on or between the Calendar Start Date and the As of Date entered in the extract editor.
  - The student has taken an Assessment Type of LID: LEP (EL) for Identification with a Result Status code of (1, 2, 3, 6) or (4 5).
    - Records report with L1-L5 result statuses (Historic WELPA) however, warnings/errors may generate upon state submission.
  - Assessment > Code must contain a value that starts exactly with one of the following in order to report:
    - LASO
    - LPTS
    - PLAS
    - WLPT
    - ELPA21 S
    - ELPA21 A
    - WIDA

- **OR** Assessment > State Code must = WELPA to report.
- The student does not have an active EL record at any time during the reporting range.
- **Program Participation:**
  - The student has an EL record active on or between the Calendar Start Date and the As of Date entered in the extract editor.
  - The student has at least one active calendar enrollment record flagged as Primary on at least one date in which the EL program is also active.
  - The EL Program must have a Program Status of EL or Exited EL.
- **EL Record Population**
  - There are 4 EL Program Participation reporting populations which affect field logic.
    - **Parent Waiver**
      - EL Program Participation is flagged as Parent Declined
      - All active EL Services are flagged as Parent Declined
    - **Reclassified**
      - Student's most recent EL record in Campus Either has
        - EL Program Designation = 4 (Reclassified)
        - OR
        - EL Program Designation is NULL/Blank AND the student has an active EL Program Participation entered in Campus where status is Exited EL
    - **STBIP Participation**
      - Student has an active EL Program Participation entered in Campus where status is EL
      - AND EITHER:
        - EL Program Designation = 1 (WA Transitional Bilingual Instruction Program)
        - OR
        - EL Program Designation = NULL/Blank AND Home Primary Language is NOT in (639,640)
    - **ELD Native Am Title 3 Programs**
      - Student has an active EL Program Participation entered in Campus where status is E
      - AND EITHER:
        - EL Program Designation = 3 (Native Am Student Title 3 English Language Development)
        - OR
        - EL Program Designation = NULL/Blank AND Home Primary Language = (639,640)

## Generating the Report

1. Enter a **Start Date** to represent the beginning of the date range.
2. Enter an **End Date** (Defaults to current date).
3. Select which **Grade Level(s)** will report data  
OR
4. Select and **Ad Hoc Filter** to further narrow results.
5. Select the desired **Format**.
6. Select at least one **calendar** from which data is extracted.
7. Click **Generate Extract** to generate the report in the indicated format or **Submit to Batch** to schedule when the report will generate.

Users have the option of submitting report request to the batch queue by clicking **Submit to Batch** instead of Generate Extract. This process will allow larger reports to generate in the background, without disrupting the use of Campus. The generated extract is available in the Process Inbox For more information about submitting a report to the batch queue, see the [Batch Queue](#) article.

Only the header row will report if there are no records reported in the extract.

## Report Layout

Element	Description	Format, Type and Length	Campus Database	Campus Interface
<b>School Year</b>	Identifies the four-digit year in which the school year ends. For example, the 2011-12 school year reports 2012.	Date Field, 4 characters  YYYY	Calendar. endYear	System Adminis > Calen Calenda End Dat
<b>Serving County District Code</b>	Identifies the serving county district code for the district submitting the data. Reports the Serving District on the student's active primary enrollment, or if null, the State District Number based on the student's active enrollment on the assessment date of record.	Numeric, 5 digits	Enrollment. servingDistrict District.number	Student Informa General Enrollm State Reportin Fields > Serving District System Adminis > Resou > Distri Informa State Di Number
<b>District Student ID</b>	Indicates the student identifier assigned by the district to the student. This data element is used in the matching of district data with records in CEDARS.	Alphanumeric, 12 characters	Person.number	Census People : Demogr > Perso Identifie Local St Number
<b>SSID</b>	Identifies the unique student ID for each Washington public school student.	Numeric, 10 digits	Person.stateID	Census People : Demogr > Perso Identifie Student ID
<b>Location ID</b>	Indicates the school's location ID as generated by the district's SIS, where the student participated or received services.	Numeric, 4 digits	School.number	System Adminis > Resou > Schoo School I > Schoo Detail > School Number
<b>Instructional Model Code</b>	Identifies the assigned Instructional Model Code associated with the student. <b>For LID Assessment:</b> <ul style="list-style-type: none"> <li>A null value is reported for students that do not have an active EL record on the assessment date.</li> <li>1,2,3,4,5,6 Result Status records report as NULL</li> <li>1,2,3,6 Result Status records must</li> </ul>	Alphanumeric, 1 character	LepService. serviceType	Student Informa Program Particip. > Englis Learner > EL Se > Servi Type AND Student

Element	Description	Format, Type and Length	Campus Database	Informa Campus Program Interfac Particip

## LID Assessment Setup

The following will walk you through the LID Assessment setup process:

1. Navigate to Assessment > Test Setup and select the **New Test** icon.

2. Select/Enter the following values:
  1. Enter a **Name**.
  2. Enter a **Code**. The code MUST begin with one of the following values:
    - LASO

- LPTS
- PLAS
- WLPT
- ELPA21 S
- ELPA21 A
- WIDA

3. Campus recommends setting the test to a Test Type of **State Test**. If you are reporting via NASIS you can create your own LID Assessment and select the **District Test** radio button.
4. Select the **Date**, **Scale Score**, and **Result** checkboxes.
5. Enter **Result Statuses** as they appear in the image below.
