Tool Search: School Choice Applications

School Choice Applications is designed to support student assignment, where applications exist for a specific program (Overrides). This tool allows the user to enter and approve an application on behalf of a student. Users with appropriate rights are able to view a list of all school choice applications the student or the student's guardian has entered via the [Campus Portal](#).

A list of all school choice applications that the student or the student's guardian has entered via the portal or with the help of district personnel displays here. Users can see the status of applications as desired.

In schools where specific programs are available for student application, the School Choice tool allows users to select a program. If the program follows program boundaries, only schools within the boundary of the student's household address are available for application. The Campus user may only have rights to add and view applications for a student based on their individual calendar rights.

See the [School Choice](#) article for guidance on setting up School Choice for the district.

The screenshot displays the 'School Choice Applications' interface for a student named Abegg, Dylan V. The interface includes a header with the student's name, ID, and counselor information. Below this is a navigation bar with 'Save', 'New', and 'Documents' buttons. The main content area is divided into two sections: 'School Choice Applications' (a table with columns for Calendar, Grade, Status, Accepted, Sequence, and Weight) and 'School Choice Application' (a form for editing application details). The form includes fields for School Name (Harrison High), Year (24-25), Calendar Name, Schedule Structure, Grade Level, Application Date, Application Has Posted, Processed Date, Application Status, Acceptance Date, Acceptance Status (P. Pending), Sequence, and Lock Application Status. There is also a checkbox for 'Enable an applicant to accept/decline on parent portal' and a 'Comments' text area. A 'School Choice Rules' section at the bottom indicates 'No Rules Defined'. On the right side, there is a 'Related Tools' dropdown menu with options like 'Add Person', 'Contact Log', 'Demographics', 'Enrollments', 'Fees', 'Food Service Deposit', 'ID History', 'Identities', 'Impact Aid', 'Membership in Households', 'Military Connections', 'Payments', 'Person Documents', and 'Programs'.

School Choice Applications

Tool Rights

Depending on district needs, users may have the following limitations because of assigned tool rights:

- View and create new applications according to user's calendar rights
- Rights to only change the approval status, comments and rule selection for a student application.
- View and edit only the highest priority non-denied application.

Create School Choice Applications

1. Select the **New** icon.
2. Select the **Program Name**, **Year** and **Grade** level from the dropdown list. A validation occurs, ensuring the user has adequate rights to perform this function.
3. Select the **Calendar Name** from the dropdown list.
4. Select the **Schedule Structure** from the dropdown list.
5. Enter the **Application Date** (when the application was submitted by the student in *mmddyy* format).
6. Enter the **Acceptance Status of Pending** for the initial application.
7. Select the appropriate **Sequence** for this student's application.
8. If applicable, mark any **School Choice Rules** that the student has met.
9. Click the **Save** icon when finished with the initial application.

If a message displays indicating there are no schools within the user's Calendar Rights that match the selected Program, Year or Grade for the student, review and/or add Overrides assigned to the Address, the Person and the Calendar.

Process a School Choice Application

1. Select the application to edit or process from the **School Choice Application** editor. Previously entered information displays.
2. Enter a **Processed Date**.
3. Select either **Approved** or **Denied** from the **Application Status** dropdown list.
4. If the application is accepted, enter the date in the **Acceptance Date** field.
5. If the applicant can accept or deny the application, mark the **Enable** the application to accept/decline on the parent portal checkbox. The date the applicant accepted or denied the application auto-populates to the **Acceptance Date** field.
6. Mark the **Lock Application Status** to reserve a seat for this application.
7. Enter any **Comments** related to this application.
8. Click the **Save** icon when finished. The updated application information is viewable on the School Choice tool and on the portal.

School Choice applications may be edited or processed manually. The majority of applications automatically use the Process Applications Wizard.

Print School Choice Applications

Select the **Print** icon to generate a report of all of the student's School Choice applications for the year, in order of applicable weight. The report generates in either PDF or DOCX format.

Manage Documents

To view documents, click the **Documents** button on the action bar. See the [Person Documents](#) article for additional information.
