[Inactivate Student Accounts](#) | [Inactivate Staff Accounts](#) | [Account Management Report Example](#)

This functionality is only available to customers who have purchased Campus Point of Sale as add-on functionality.

Tool Search: Account Management Wizard

Inactivating an account clears the **Active** checkbox on the patron's [Account Details](#) tool. Inactive accounts do not appear on POS terminals.

Student Accounts

The Account Management Wizard inactivates Student Accounts when a student does not have a current active or future-dated active enrollment. The wizard searches for an Enrollment End Status Code and/or Enrollment End Date depending on the criteria you select. However, if you use the Ad hoc tool to select student accounts, the wizard inactivates all accounts regardless of current or future-dated enrollments.

Staff Accounts

The Account Management Wizard inactivates staff accounts when the staff member has a District Employment and/or District Assignment record with end dates and no active or future-dated District Employment record or District Assignments.

Family Accounts

The Account Management Wizard considers the enrollments for all patrons on the account. If ANY patron on the family account has an active enrollment or an active staff record, the account is NOT inactivated. All patrons on family accounts are inactivated with the account if there are no active or future student enrollments or staff employment records found in Campus for the patrons on the account. However, if you use the Ad hoc tool to select accounts, the wizard inactivates all accounts regardless of current or future-dated enrollments or employment records.
